

TRAIN THE TRAINER REPORT

Jade Hochschule 2015
Wilhelmshaven

Done by: Aya Alofi

I spent the last couple of months in Germany with train the trainer program. It was one of the best experiences I ever had in my life. I have participated in the international summer school in Jade Hochschule in Wilhelmshaven where I had a chance to meet people from all over the world specially Europe.

Meeting people from different cultures and backgrounds definitely made the experience richer and more fun. I had the chance to take part with all the outdoors activities there, that could be excursions for the courses (fields trips) such as visiting Airbus factory for building airplanes , Meyer Werft for building the ships and visiting Bremerhaven museum for immigration. On the other hand there is a lot of the activities I saw during my stay which is not directly related to my training in investigating the German methodologies in teaching but definitely added a lot to me and made my exposure wider such as the festival and mini wonderland I visited in Hamburg, the 'Pumpwerk' night in Wilhelmshaven.

I had the chance as well to attend a course in the intercultural outstanding with the head of international office Miss Andrea Menn where I made my presentation about the Jordanian culture.

People in Germany were very friendly and so helpful to me especially the international office. I was surprised by the widely-covered, well organized and accurate public transportation system in Germany, it just made my transportation very easy and safe even when I was by my own.

After two weeks of my staying in Germany I started making visits to some of the nearest Europe countries in the weekends. So by the end of my stay I managed to be once at Paris, Prague, Berlin, Groningen, Amsterdam and Belgium.

Thanks to the GJU, two months with unforgettable experience and memories were added to my life.

Now that I am in Jordan again working freshly and more motivated after this trip I am very thankful for this opportunities and all the help I got especially from the international office here I really appreciate their effort.
