Welcome note

Dear Students, Exhibitors and Guests,

It is a great pleasure to welcome you at the eighth annual Career Fair at the German Jordanian University for this year 2018.

The Career Fair, which is the largest annual event organized on campus, reflects GJU's strong cooperation with the industry not only locally but also internationally, where it provides the students and graduates with support in finding internships and jobs beside learning more about possible career opportunities in different fields.

Over the last years, we enriched GJU's vision from Education for Employment to Education for Employment and Entrepreneurship (E for E&E) through our devoted units Office for Industrial Links (OIL), Program Innovation and Entrepreneurship (PIE), and the Industrial Relations Committee (IRC) to strengthen GJU's industrial dimension and support our students for their life after graduation.

Also in this year's GJU Career Fair, we welcome a variety of companies and organizations and gather them in one platform to interact directly with our students and graduates to provide guidance in terms of career choices. In addition, our faculty representatives are given the chance to network and discuss market requirements directly with companies.

This year we welcome around 70 exhibitors, which present their businesses in different dedicated sections. These include not only the corporates, but also sections for startups and entrepreneurship support organizations, training providers, NGOs and educational institutions. This handbook will guide you through the Fair and provide information about the exhibitors, which can also be used as reference in the future.

I would like to thank the Office for Industrial Links Career Fair team, the Career Guidance Office at King Abdullah II Fund, the Public Relations Department as well as Supply and Services Departments for organizing and supporting this event. My appreciation goes also to our students who assist the companies throughout the entire day in management and organization.

I wish all participants, visitors and guests a very successful, fruitful and enjoyable time at GJU's 8th annual Career Fair!

Prof. Manar Fayyad

Scholarships for Syrians and disadvantaged Jordanians

Syrian crises Consequences

The Syrian crises have affected the whole region and enforced many Syrians to reallocate to other neighbouring countries seeking peaceful and stable lives. The Syrian students are among those affected by the crisis and were enforced to stop their higher education and interrupt their studies.

In order to help Jordan to cope with these new challenges many worldwide organizations provide Syrian refugees with support to overcome some of their needs. One basic need of those refugees is to have access to higher education system, which is the target of this EU supported project.

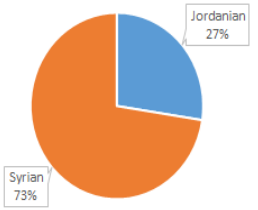

Project Summary

EDU-SYRIA is a framework to help Syrian refugees in Jordan and vulnerable Jordanians from the refugees host communities for further higher education through a set of scholarship programs.

The project consists of two components: EDU-SYRIA I and EDU-SYRIA II, which gives the students the opportunity to pursue an academic or professional educational degrees.

EDU-SYRIA supports the "No Lost Generation" strategy, which aims to provide those affected by the conflict with the chance to shape a more stable and secure future.

Academic calendar

Fall/winter semester
Lectures: October 1, 2018-January 25, 2019; Examination Period : January 28-February 15, 2019

Spring semester
Lectures: March 18, 2019-July 5, 2019; Examination Period: July 8-July 26, 2019

The HfWU academic calendar does not always match perfectly with the academic calendar in some countries. Therefore, in exceptional cases, i.e. if lectures start earlier at home and attendance is mandatory to reserve a seat, students from our partner universities can take the HfWU exams at home.

Orientation Days

All international students are requested to take part in the Orientation Days. These days are designed to help them feel more comfortable in Germany and to give them time to do the paperwork, register for classes, meet other exchange students and get to know the campuses. We even do trips to nice places within Germany.

Orientation Days for spring/summer semester: March 7 – 15, 2019

Academic Information

Course catalogue "Course Catalogue for Incoming Students" with more than 60 courses taught in English is usually updated until mid-August respectively January and available online. As incoming students choose English taught courses from different programs and semesters, time clashes are unavoidable.

Language of Instruction English, German

Language Proficiency Applicants should have a good command of English to be able to follow lectures without difficulties (upper intermediate/at least B2). We strongly recommend that non-English native speakers take an English language proficiency test, preferably TOEFL or IELTS.

Language Courses/ German Culture HfWU offers German language courses at different levels for international students during the semester with 3 ECTS each. We also offer a German culture course. Students in this course get familiar with German history and politics. German language and culture courses are free of charge.

Nt-Great Integration Project Nt-Great is an integration project to help international students settle into their new environment and to get to know local people.

About NRC

The Norwegian Refugee Council (NRC) is an independent humanitarian organisation helping people forced to flee across more than 30 countries. Since 2012, NRC has worked to build the resilience of Syrian refugees in Jordan, and invest in the Jordanian communities that host them. NRC supports Syrian refugees in Zaatari and Azraq refugee camps, as well as vulnerable refugees and Jordanians in north and central Jordan (Irbid, Jerash, Ajloun, Mafraq and Amman governorates).

In Jordan, NRC provides services in five of NRC's global core competencies: **Shelter, Education, Youth, Livelihoods and Information Counselling and Legal Assistance (ICLA).**

NRC works closely with all relevant ministries to ensure our programmes are in line with national priorities and support the national response plan. On the ground, NRC also works closely with networks of Jordanian Community Based Organisations (CBO) and volunteers, allowing NRC to be embedded in the community and build on local knowledge to broaden its outreach and access those most in needs.

NRC in Jordan is also a determined advocate for Syrian refugees. We promote and defend their rights and dignity through continuous advocacy activities, as well as engagement in several coordination platforms. NRC chairs the Jordan INGO Forum and co-chairs multiple national level Working Groups, including the protection and shelter Working Groups.

About our Graduate Programme

Assurance

You'll be part of the team that gets to grips with every aspect of clients' activities, understanding their business to identify where our high-quality audit can add insight and value. Work with our prestigious client list and you'll develop the business skills, knowledge and relationships you need to do well in a career that's about so much more than numbers. You'll go beyond the obvious and develop real insights into a client's markets, technology, people and management, as well as its finances. Your intelligence, courage and ability to embrace change are key attributes we look for. Joining our team, you'll need to be able to think independently and confidently about sharing your point of view. We're constantly drawing on the breadth of our experiences and relationships to provide our clients with a tailored and risk-focused approach to the audits we do for them. The bulk of our work in Assurance falls into three main business units: Core Assurance, Risk Assurance and Capital Markets & Accounting Advisory Services (CMAAS).

Deals

Working in the largest integrated Deals business in the region will expose you to leading clients, delivering specialised services across the deals spectrum. From market entry through to mergers and acquisitions, capital projects, restructuring advisory and forensic examination and disputes, Middle East Deals will provide you with the skills to strategise, challenge and analyse all aspects of a situation and maximise value for our clients who may be involved in a transaction or addressing a crisis.
The 2 year development program is aimed to equip you with the skills and knowledge essential for your day-to-day life as a Consultant in Deals. The program includes a range of learning opportunities and real life engagements that will provide you with broad experience across the services provided in Deals.

How you'll start

No matter which location you join, you'll be part of a cohort of more than 300 fresh graduates joining PwC Middle East's regional induction programme in September 2018 in the United Arab Emirates. In your first week, you'll get the opportunity to refine your soft skills, meet the leadership, network with your peers whilst becoming familiar with PwC as a business; its brand, its values, its work and its people. This is followed by weeks of technical training tailored to your business area: Assurance, Consulting, Deals or Tax.

You are now a PwC professional, solving important problems.

Assurance & Deals

What you'll gain

In addition to your challenging & exciting work, you'll get technical & soft skills training, coaching & mentoring and mobility. You will also have the opportunity to study towards a professional qualification relevant to your business area.

What we look for

Graduates of 2017/2018 holding a Bachelor's degree (or Master's) in any subject with strong academic background.

Application deadline
21 April 2018
