ABOUT THE UNIVERSITY

Saint-Joseph University, Beirut (USJ) is a private, higher education institute, founded in Beirut, Lebanon by the Jesuits in 1875. It has non-profit making and public service status and enjoys a high level of administrative, scientific and financial autonomy as regards its founders and Lebanese state authorities.

USJ completes its academic and research missions through a network of 13 Faculties, 21 Institutes and Higher Education Schools in addition to a certain number of research centers and Chairs covering the full range of university training and research areas.

ABOUT THE PROGRAM

The program aims at training a generation of executive managers specializing in local road safety issues and capable of initiating and managing actions or policies to tackle the root causes of poor road safety and enable the region to achieve sustainable mobility.
