**\* Kindly note that this dead line for photo shooting will not be extended.**

If you are interested in including your testimonial in the yearbook, you can send it to :  
Muneer.Baniyounis@gju.edu.jo

### TESTIMONIALS GUIDELINES

Be sure to write: your name, Department, School and Semester of graduation

What is suitable and considerate when you give a testimonial:

It could be about the campus and facilities, the academic staff, the German year, access to the practical and labor market of the desired study-field, local/international practical experiences, and intercultural communication with Germany.

Always highlight the strengths or the good experience you had during your experience in the University.

Whatever you write about should be engaging. Providing real life examples really helps here.

Write about how the University helped you personally.

It should be short; max number of 30 words. Write about the most important aspects of your experience. Go straight to the point when you are writing testimonials.

**An example:** “The lectures and tutorials are interesting and academically stimulating. They are applied to real-world case studies which make them extremely useful.”

**Congratulations and best wishes to our dear graduates.**

**Let 2019 Year Book be special with your contributions.**
