We are the
German Jordanian University

The German Jordanian University (GJU) is a public university located in Al-Mushaqqar, Naour, on the Amman-Madaba Highway. It is a public university with academic distinction in teaching, research and community service. The university is oriented to the German Fachhochschule model (University of Applied Sciences) in teaching its undergraduate and graduate programs. GJU focuses on providing applied study programs of highest quality.

It offers 17 undergraduate programs and six postgraduate (Masters) programs, with a student body of over 3000 students: 15% of which are foreign students and the remaining majority from across Jordan.

WHAT MAKES US SO UNIQUE

- What primarily attracts students to the German Jordanian University is the **promise of a less troublesome and a more secure route to a career.**
- GJU is distinguished from other universities in Jordan and the region because it offers **highly practice-oriented (academic) programs.**
- We offer **unique academic programs** that are not offered in any other university in Jordan or the region.
- Our **dynamic study plans meet the ever-developing local and regional demands.**
- We provide **state-of-the-art labs** supported by the industry.
- GJU graduates are **multilingual** (English, German and Arabic).
- GJU comprises **diversified** faculty, staff and student body (diverse in nationality, gender, educational background and experience).
- Our students **spend one academic year in Germany:** one study semester at a German university and one internship semester in a German company.
- We are **highly committed to national and international standards of accreditation**, including faculty/student and faculty/staff ratios.

WHY TO CHOOSE US

- The university's hallmark is a culture of engagement that bridges theory with practice by implementing practice-oriented teaching and applied research programs.
- The language of instruction at GJU is English, and our students must finish six levels of German language to be eligible to go to Germany.
- GJU students move to Germany for their fourth year to study in one of our Partner Universities and to complete an industrial internship.
- The university is linked to many other universities through bilateral agreements for cooperation, collaboration and exchange of faculty members and students. These include Arab, European, North American and Asian universities.

ADMISSION & REGISTRATION

The German Jordanian University admits undergraduate students based on certain criteria. Students should obtain the Jordanian General Secondary School Certificate (Tawjihi) or an equivalent, with a minimum average of 80% for Engineering and Architecture majors and 75% for Management Sciences, Logistic Sciences, International Accounting, Computer Science, Translation: German/English/Arabic, German & English for Business & Applied Studies, and Design and Visual Communication.
