

MyGJU Tutorial

Old Course Codes & Equivalent Prerequisites

Dr. Firas Al-Hawari

Objective

Make the registration process less stressful to our students by allowing them to register their courses by themselves without the intervention of the registrars when possible

Why was it stressful?

- ▶ Previously, a student who is linked to an old study plan that contained courses that are now offered with different codes could not register those courses independently from the registrars
- ▶ A student cannot independently register a course with a prerequisite that he/she satisfied by taking an equivalent course with a code different than what is entered in the study plan

MyGJU to the Rescue!

- ▶ **Eduwave could not handle any of what was mentioned before!**
- ▶ **Our MyGJU can now handle both of the previous cases**
- ▶ It does that based on compiled lists of old versus new course codes to open the equivalent course sections for your major
- ▶ It also uses a database of equivalent courses to solve the prerequisite courses issue

Note !!

Our goal is to solve this problem totally, but the new databases are not complete and we are still working on them. So if you encounter a case that is not supported yet, please bare with us an seek the registrars help till we fully complete this task in the coming few weeks

Example on Old Course Codes (1)

CS1120	Computing Fundamentals Lab		CS112:Computing Fundamentals		0	0	3	Not Taken		Equivalent Course Sections
CS112	Computing Fundamentals		CS1120:Computing Fundamentals Lab		4	3	3	Not Taken		Equivalent Course Sections

Section Required Credit Hours: 34

Section Total Offered Credit Hours : 34

Section Completed Credit Hours: 30

University Electives Offered Courses										
Course ID	Course Name	Pre-requisites	Co-requisites	Pre Tests	Credit Hours	Theoretical Hours	Practical Hours	Status	Grade	Add
SFTS101	Soft Skills				3	3	0	Not Taken		Course Sections
IC101	Intercultural Communications				3	3	0	Not Taken		Course Sections
SE301	Social Entrepreneurship and Enterprises				3	3	0	Completed	83.0	Course Sections

- This is a partial view of the offered study plan courses for a student
- The student would like to take CS112 and CS1120 in his study plan
- Those courses are not offered anymore, but their equivalent courses CS116 and CS1160 are offered instead
- Before, the student was **stuck** and he/she had to resort to the registrar to continue
- Now, MyGJU figures out the scenario and notifies you that it found **Equivalent Course Sections** so you can proceed and register them

Example on Old Course Codes (2)

Registration > My Current Schedule > My Study Plan Offered Courses > Offered Course Sections

My Current Financial Summary

Current Balance (JD):	-30.000	Major Credit Hour Price (JD):	80.0
Pending Balance (JD):	-30.000	Language Credit Hour Price (JD):	60.0
Student Pending Amount (JD):	0.000	Financial Exemption:	NO
Scholarship Pending Amount (JD):	0.000	Scholarship:	

My Schedule for Second 2015/2016

Section No.	Course ID	Course Name	Credit Hours	Days/Times	Instructor	Room ID	Note
-------------	-----------	-------------	--------------	------------	------------	---------	------

No schedule found for this semester

Offered Course Sections

Section No.	Course ID	Course Name	Credit Hours	Days/Times	Instructor	Room ID	Add
1	CS116	Computing Fundamentals	3	Sun 11:00 AM - 12:30 PM	Dhiah Abou Tair	C210	Add
				Tue 11:00 AM - 12:30 PM		C210	
2	CS116	Computing Fundamentals	3	Sun 02:00 PM - 03:30 PM	Mohammad Aldaoud	C103	Add
				Tue 02:00 PM - 03:30 PM		C103	
3	CS116	Computing Fundamentals	3	Mon 09:30 AM - 11:00 AM	Ahmad Barghash	C107	Add
				Wed 09:30 AM - 11:00 AM		C107	
4	CS116	Computing Fundamentals	3	Mon 12:30 PM - 02:00 PM	Samer Nofal	C103	Add
				Wed 12:30 PM - 02:00 PM		C103	

When you click on the “Equivalent Course Sections” link for the CS112 course in the previous slide, MyGJU will open the CS116 course sections because CS116 is equivalent to CS112 as defined in the database for your major

Note: If the relationship was not defined in the database then you will not be able to proceed!

Good Luck
