

## Student Testimonials: Internship at Daimler

*"I will never forget my experience at Daimler. My team helped me grow professionally and personally, they helped me develop my German language and my interpersonal skills. Looking back, it was definitely from the best experiences I have had".*

Zina Karadsheh, Industrial Engineering: Intern 2015, Working student 2016

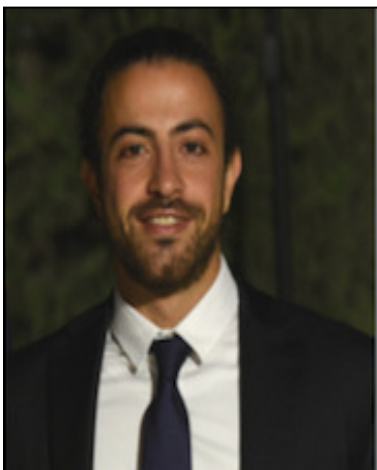

*"Thank you for made feel at home when I was miles away from it "*

Zeina Abdo, Industrial Engineering: Intern 2017

*„My stay at Daimler AG was an experience that I didn't expect, being part of an international company and observing how processes are done, how problems are solved, how is the work relations between managers and their employees and between employees themselves at work and in normal life is just something every student should experience during their internships".*

Rajai Kalisse, Industrial Engineering.: Intern 2012, Thesis 2013

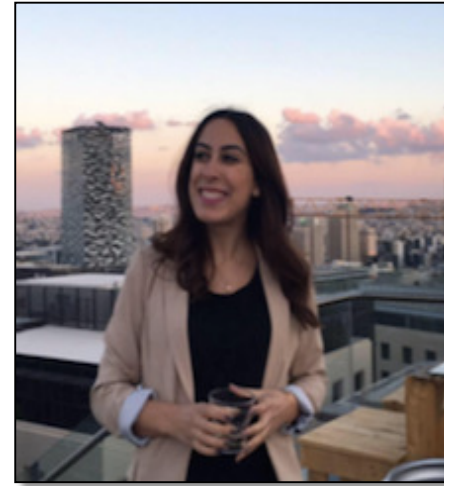

*"In summary, I have gained more experience during my six-month internship than most, and as the great Albert Einstein once said: "the only source of knowledge is experience"*

Sereen Snobar, Management Sciences: Intern 2014

*"When I first joined the VAN Einkauf Prototypen department, I had no idea that I will spend the next 11 months there. I intended to do my 6-months internship and return back home, but I was learning so much and enjoying my time with amazing colleagues who became friends that I extended and stayed longer. I still look back at my time there as one of the best experiences in my life and miss my days there and all the amazing people that I met."*

Laura Zabaneh, Industrial Engineering: Intern 2011, Thesis 2011

*"In this year I gained a lot of life experience, also new techniques and insights related to my major in all cases. In general, this year helped me reach broader horizons".*

Sereen Alnakhleh, Industrial Engineering.: Intern 2017

*"My internship at the prototypes procurement department gave me a new perspective and taught me new organizational skills that I could definitely use in my professional career."*

Fadi Haman, Industrial Engineering: Intern 2013, Working Student 2014

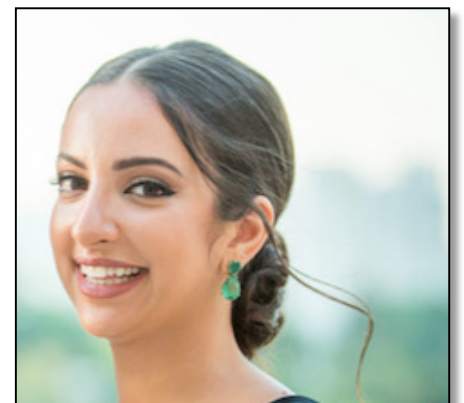

*"I learned that time management, planning, asking questions and sharing information creates a strong base and harmony between team members. Being part of the working environment in Germany and putting my German knowledge into practice were also major take-aways from my experience".*

Anita Bursheh, Industrial Engineering: Intern 2013

*"My internship helped me gain insight to the professional life surrounded by a truly friendly team."*

Dina Masanat, Industrial Engineering: Intern 2012

*"One of the most enlightening and unforgettable experiences that I will never forget, working at Daimler was one of my life's greatest accomplishments."*

Abeer Hasan, Industrial Engineering:  
Intern 2015, Working Student 2016
