Jury member for King Abdullah award organized By GAM for the year 2020

Member for the Advisory Urban Local Forum for combatting climate Change- **GIZ** Jordan Environment & Climate Programme, 2019

Participation and moderation of a session in 2nd International Conference of Engineering Association-Balqa Branch, Dead Sea, 3-5/12/2019

Committee member for selecting the winning project for developing a strip across al-Hafayer area on the RedSea in Aqaba to accommodate mixed-use investment for ASEZA (Aqaba Special Economic Zone Authority) in 2017.

Member of the Preparatory and Scientific committee for the fifth International Conference on Contemporary Architecture in the Arab world: Opportunities and challenges, organized by JEA, Amman, 2016

Member of the committee for selecting the winning projects for 'Tourism for Tomorrow' award, organized by British Airways on 2/1997.

Main researcher ;

-Team Leader & senior Heritage specialist researcher for “Heritage for Development: investing in people for the protection and management of historic city centres” (H4D) ENPI-EU project in partnership Centre for Cultural Heritage Preservation in Bethlehem, with the technical support of RehabiMed Association in Spain, and in partnership with Riwaq -centre for architectural conservation and Cultural Technologies; (2012-2014)

-Researcher for the Risk Management Plan of Petra organized by UNESCO Amman office in partnership with K-Leuwan University/Belgium (2010-2012).

-Main researcher with Jordan Department of Antiquities for ATHENA PROJECT: Ancient Theatres Enhancement for New Actualities, Work Package 3 (Tasks 1, 2, 3): Outlining a sustainability strategy: intervention priorities and overall compatibility (2010)

-National researcher & Jordan University representative at the Unimed Audit Project “Analyse des Politiques Patrimoniales”, in cooperation with Meda Programme of the European Union, 1999- 2000. National

-Researcher for a regional project & report contracted by the World Decade for Cultural Development-UNESCO under the project “Culture, Tourism & Development in the Arab Countries: the case of Jordan.” (1996-1997)

***Work undertaken that best illustrates this experience***

**Name of assignment or project:** “Heritage for Development: investing in people for the protection and management of historic city centres” (H4D);

**Year:** 2012-2014

**Location:** Jordan

**Client:** ENPI-EU

**Positions held:** Coordinator - Team Leader & senior Heritage specialist

**Main project features:** The project was implemented by the Centre for Cultural Heritage Preservation in Bethlehem, with the technical support of RehabiMed Association in Spain, and in partnership with Riwaq - centre for architectural conservation and Cultural Technologies. The project was implemented in association with the municipalities of Bethlehem and Ramallah in Palestine and As-Salt in Jordan.

Activities performed: Coordinate with other H4D partners, lead the project and identify the action plans and activities. Develop the criteria for assessment of heritage buildings, open spaces and related typologies. Conducting workshops with local stakeholders. Develop the action plans and propose recommendations for the municipal council and steering committee. Prepare the Manual for the Rehabilitation of the Historic Centre of As-Salt.

**Name of assignment or project:** The Petra Conservation Plan

Year: 2012- 2013

Client: CulTech Team in Cooperation with PDTRA

Positions held: Research Team member

Location: Jordan

Main project features: Development of the Conservation Plan for Petra World Heritage site.

Activities performed: Preparing a comprehensive Conservation Plan for Petra

**Name of assignment or project:** Training Course in the “Management of Cultural Heritage sites: Regeneration of Historic Centers Project for Local Governments Units (RHC)”

**Year** 2016

**Location** Amman

**Client** State of Palestine-Ministry of Local Government.

**Main project features:** Training for municipal units by CulTech on international related charters, urban conservation best practices and study cases, (organizer and lecturer).

**Name of assignment or project:** Submitting the dossier for the inscription of Salt on the World Heritage List

Year: 2015-2016

Location: Jordan

Client: Municipality of Greater Salt

Main project features: the project covers the preparation of the dossier related to the inscription of Salt on the World Heritage List

Positions held: Senior Heritage Consultant

Activities performed: Analysis of values leading to the statement of outstanding significance (OUV) Comparative regional case studies

**Name of assignment or project:** "Improvement of Mediterranean territorial cohesion through setup of tourist-cultural itinerary Umayyad,

Year: 2012-2015

Location: Jordan

Client: ENPI-EU

Main project features: The Umayyad project aims to reinforce cooperation between the European Union and partner countries and regions located along the shores of the Mediterranean Sea. This project was implemented by cooperation by different countries. The partners are Spain, Italy, Portugal, Jordan (Cultural Technologies),

Lebanon, Egypt and Tunisia. The project targeted the policymakers, executives of policies in the tourism sector and tour operators. The main objectives are - To achieve competencies and capacities of territorial cohesion in order to overcome the seasonal imbalances in the touristic sector within the Mediterranean territory. - To promote sustainable tourism based on synergies derived from the design of a cultural itinerary, focusing on the Umayyad heritage. - To improve territorial cohesion through product diversification (sport, rural and cultural tourism, etc.).

Positions held: Team Member

Activities performed: WP 5: Design of thematic travel packages, 5.1 Analysis of cultural heritage tackled with Umayyad, 5.2 Analysis of tourism infrastructure, supply chain and policies at each partner-level: constraints and opportunities for “off-season” offers, 5.3 Launch of Cultural Itinerary of Umayyad: cross border cooperation between PPP.

**Name of assignment or project:** Risk Management at Heritage Sites, A Case Study of the Petra World Heritage Site

Year: 2011- 2012

Client: UNESCO office/ Jordan in partnership with K-Leuven University/Belgium with the cooperation with the Petra Development and Tourism Regional Authority (PDTRA) and Department of Antiquity (DOA) of Jordan.

Location: Jordan

Main project features: Development of a risk management methodology for the heritage site of Petra as the result of Risk Mapping Project in Petra

Positions held: Consultant and researcher

Activities performed; Contributed to the development of a methodology for assessing risks at Petra based on similar approaches such as proposed by International Centre for the study of the Preservation and Restoration of Cultural Properties (ICCROM) and the Canadian Conservation Institute (CCI). Developed a criteria and guidelines for the buffer zoning of the area adjacent to the World Heritage site, where the stretch of Um Sayhoun /Beidha was selected for an action area. Assessing the several management plans undertaken at Petra including the Strategic Master plan (ATC) Overview of conservation work undertaken in the city

**Name of assignment or project:** ATHENA PROJECT: Ancient Theatres Enhancement for New Actualities,

Year: 2010- 2011

Client: Ministry of Tourism/ Jordan,

Location: Jordan

Positions held: Main researcher

Main project features: The main aim was to define the needed related guidelines and recommendations to provide a systematic approach for a sustainable strategy for the management of "ancient theatre compatible use" and identify "theatre

technical risks", based on identification, classification and assessment of the theatre risk causes and contributing factors and their mitigation. A methodological approach for the theatre anthropogenic risk assessment and mitigation management was proposed, where recommendations to provide a systematic approach for theatre site managers and heritage experts to understand, assess, and mitigate risks mainly due to anthropogenic and technical threats were proposed.

Activities performed: *Work Package 3 (Tasks 1, 2, 3): Outlining a sustainability strategy: intervention priorities and overall compatibility.*

**Name of assignment or project:** SIYAHA project "Support Madaba Walking Tour", USAID funded project.

Year: April 2006 to 6/2008

Client: Ministry of Tourism/ Jordan

Location: Jordan

Positions held: Heritage consultant for SIYAHA project

Main project features: USAID funded project "Support Madaba Walking Tour";

Developing a **site management plan** for the archaeological/heritage park at Madaba, including action projects and interpretation plans.

Develop the **Interpretation Project of Madaba Visitor Centre**

Activities performed: Heritage consultant for SIYAHA project "Support Madaba Walking Tour", USAID funded project. Project manager and heritage specialist for developing a **site management plan** for the archaeological heritage park at Madaba as part of the heritage trail.

Support the development of a preliminary interpretation action plan for the Park and surrounding landmarks in cooperation with interpretation experts from National Park Service (NPS of USA).

In addition, served as the Technical manager for the **Interpretation Project of Madaba Visitor Centre** in cooperation with the Friends of Archaeology Society and financed by USAID, where interactive interpretation sessions were conducted. Panels were developed in cooperation with local focus groups and the graphic designers.

**Name of assignment or project:** Regeneration of the Historical City Centre of Irbid and Restoration of the Traditional Buildings

Year: 2005-2008

Location: Jordan

Client: Ministry of Tourism/ Jordan, in collaboration with Consolidated Consultants for Engineering & Environment.

Main project features: the study aimed at developing the key heritage buildings with high cultural significance of the historic centre in relation to the existing network of open public and green spaces and opportunities for development.

Positions held: Senior Heritage/built environment Experts

Activities performed:

1. Assessment of the traditional urban fabric of the historic core (study area) and its cultural significance,

2. Identification and assessment of the impact of current urbanization practices and policies on the area's cultural heritage significance, in order to understand and analyse the existing situation; This includes the heritage buildings' degradation, the land use practices, urban change detection and its fragmentation and lack of connectivity between the modern and the historic city core. In addition to the evaluation of the existing urban infrastructure including the road network and traffic and the lack of a proper legislative framework.
3. Developing a strategy with supporting regulations for a sustainable heritage urban conservation and tourism action plan for the historic core of Irbid city.
4. Proposal for an integrated conservation and tourism action plan for Irbid historic core, including the introduction of a safe pedestrian network between the Northern and Southern part of the core, in order to link the Tal with the rest of the heritage city core and related open spaces.

**Name of assignment or project:** UN funded training programme project for Iraqis on urban conservation and protection of historic areas

Year: September 2005

Location: Jordan

Client: UN

Main project features: Training programme for Iraqis working in the municipalities or related ministries on the urban conservation and protection of historic areas

Positions held: *Project manager & coordinator and lecturer*

Activities performed: Project manager and coordinator for the urban conservation and protection of historic areas training in collaboration with the Jordanian Urban Management Society JUMS

Development of themes and lecture titles and propose the lecturers and regional experts

Develop and follow up the programme including site visits to case studies in Jordan.

Develop the forms for the evaluation of activity and report the feed back from the participants.

**Name of assignment or project: Taibet Zaman Tourist Development Project**

Year: 1993-1996

Location: Jordan

Client: JTI (Jordan Tourist Investment)

Main project features. **Taibeh Tourist Development Project** of the late Ottoman village near the ancient city of Petra was based on a pioneering partnership between the villagers and JTI (Jordan Tourist Investment) for the reuse of parts of the traditional village of a total built up area of 12000m<sup>2</sup> and its surrounding fields

into Taibet Zaman resort. It was awarded the **1996 Tourism for Tomorrow Award**, organized by British Airways.

Positions held: Project manager/team leader and heritage specialist for phase one & two of Taibet Zaman.

Activities performed: Develop the documentation, conservation and reuse strategies of the project.

Development of compatible programmes and uses for the different spaces.

Provide economic opportunities for the participation of the local communities in the refurbishing and adaption of the internal spaces.

The scope of work covered also the design of in-fill buildings, interior design & furniture and landscape design.

Architectural, interior & landscape works supervision .

- 2019** Lecturer “**Architectural heritage: challenges for its reuse and protection**” for the programme Masar undertaken to support the National Commission for Women to raise the awareness of the female members of the local governance and administration committee.
