Academical Challenges

INTERNSHIP

TEXAS INSTRUMENTS

Graduation Project

Overall evaluation

- Socially, I was blessed with great neighbours who became good friends. Thanks to intercultural skills gained in GJU.
- Academically, I passed 15 Crh, and challenged myself with difficult labs.
- Professionally, I found an internship in the field that I love –cooling systems-, and I am going through the process of doing my graduation project as well.
- Personally, the German year has allowed me to grow and find myself as engineer.
