

Tailored Training on Low Vision

Small groups of eye professionals interested in building their knowledge and skills in the field of low vision rehabilitation can get together and have the course tailored to their needs. It is formed by a series of three modules.

- 1 Low vision assessment and magnification
- 2 Providing visual devices and training
- 3 Clinical low vision

Practicalities

Days and times: to be determined.

Languages: English and/or Arabic.

Each module: 20 contact hours, 200 JDs fees.

The courses are recognized by the Jordanian Ministry of Higher Education.
