TESTIMONIALS

» The International Accounting Department in the GJU prides itself for including distinguished faculty members, some of which hold professional certificates while others possess extensive expertise in their field. The curriculum is constantly updated in order to meet the developments and needs of the marketplace.

Furthermore, the German year is guaranteed to enrich students' life experience and knowledge

- **Dr.Ahmad Abu Doleh**
Department Head

» I believe that the experience and engagement given by the German Jordanian University, developed a set of skills to be offered to international marketplaces. As also the exposure to different teaching styles has given me a different perspective about future and what I really want to do

- **Mohammed J. Abuzer, Mgt Sc. a Final Year Student**

» My journey at GJU is one that will always be remembered. GJU opened the first official logistics department in Jordan. Since the implementation of logistic activities is on the rise, the university opens new doors for students to capture opportunities and needs in the industry and work in such a highly demanded field.

- **Zeena Dajani, Fourth Year Student**

OUR FEATURES

Studying at our school is attractive and interesting as the student will come across with a very positive and friendly culture and experience nice ambience in campus. Several advantages of studying at our school which stems in; diverse students from the region and Germany "in the form of exchange program", teaching is only in English language, applied education either in classes through real case studies and field projects, or during two internship phases: one in Jordan and the other one in Germany. Studying German language is also another advantage. SMLS professors not only come from all over the western and reputable universities themselves, they also bring practical knowledge about what's happening at the forefront of international industry. Many have been well-respected executives, consultants and holds professional certificates, and have years of experience practicing what they teach. Our supportive & cooperative faculty members is also another feature.
