# **HIS MAJESTY KING ABDULLAH II**

“Dear Chancellor Merkel, I can say that I am very satisfied with our cooperation on a bilateral level. Above all, with such successful projects as the German Jordanian University. This is certainly one of the most successful projects I’ve seen in my country in the last ten years. We hope that we can move forward on this basis even further.”

**HIS ROYAL  
HIGHNESS  
CROWN PRINCE  
AL-HUSSEIN BIN  
ABDULLAH II**

The President

# **PRESIDENT OF THE GERMAN JORDANIAN UNIVERSITY**

Prof. Manar Fayyad

Dear Graduating Students,

Graduations mark the end of one journey and the beginning of another... some may even consider them as a rite of passage through the journey that is life.

New beginnings are full of endless possibilities and responsibilities. They give us a chance to define ourselves, and explore our boundaries. Some of our students may be moving on to their first jobs, while others want to undertake higher level studies, or maybe even travel the world. But they all share one mission: being the ambassadors of Jordan and the German Jordanian University. They not only represent their university, but also their heritage, their traditions and everything that their country holds dear.

I believe that the most important value that our University promotes is the aim for excellence, and I truly

believe that our outstanding GJUers will apply this principle to every aspect of their lives and will never settle for anything less than extraordinary.

I have witnessed GJU being an advocate for entrepreneurship and innovation from the very beginning. It has been an encouraging platform for all graduates to become employers as well as employees, and create jobs rather than just look for them. This new generation is well equipped with the tools, knowledge and skills to contribute to the advancement of our communities and our country. This year has been particularly special for me, as all our efforts to maintain GJU as a unique, outstanding institution have been very well received and

supported by many. We have welcomed special visitors from across the globe, all of whom have shown their excitement and encouragement. Furthermore, our University Council and staff members have all been working tremendously hard to preserve our mission and build on our goals of making demonstrable contributions to the development of our Jordan. Finally, I would like to congratulate all of our students and their families and wish them the very best in their future endeavors. You have already raised the bar, our dear students, and we have high expectations from each and every one of you, so make everything that you do count.

**Congratulations!**

- SBSH prepares our students to become proficient in the English language by their third academic year.
- We Train our students to face the real world through promoting intercultural communication, soft skills, leadership and emotional intelligence, and entrepreneurship and enterprises.
- We Arm our students with the basics of Physical Sciences and Mathematics that will help them think critically of the various engineering problems that they will face in their professions.
- SBSH faculty members are heavily involved in interdisciplinary research projects with most of the engineering specializations faculty members at GJU.
- SBSH faculty members were able to obtain funds for many research projects from many international research funds such as DAAD, Erasmus plus, Jordanian Scientific Research Fund, DFG, among others.
- National Education faculty members at SBSH were pioneers in achieving an online National Education course through the EDRAAK platform, which eventually will be shared by many other Jordanian Universities.

# OFFICE OF THE VICE PRESIDENT FOR INTERNATIONAL AFFAIRS | MISSION

---

The international and the German dimension at GJU – this is what the Vice President for International Affairs and her office are responsible for.

Building and strengthening bridges between Jordan and Germany is the main mission of GJU's Vice President for International Affairs. Students, lecturers, researchers, cooperation partners, and politicians can travel on these bridges and meet in between with regard to international, intercultural, scientific and application-oriented exchange and knowledge transfer. Networks arise from bridges and friendships arise from travellers.

## GERMAN LANGUAGE CENTER | MISSION

---

The German Language Center (GLC) was established in summer 2012. Today it's the largest university-based German Language Center world-wide with more than 60 lecturers and experts. It is considered to be a central institution serving all departments and all students of GJU. Its primary task is the teaching of German as a foreign language up to the level B1 (GER). Teaching and learning are performed in close cooperation with the Goethe Institute Amman as well as the related language programs of the School of Applied Humanities and Languages at GJU.

Every year, floods in Petra pose a dire threat to the residents, guests and monuments of Petra. Flash floods occur with little warning, and the narrow channel formed by the Siq and the courtyard of the Treasury become inundated with water. Obviously, this is of great concern to the Petra Development and Tourism Regional Authority.

With funding from the US Ambassadors Fund, CSNACH is the process of tackling this issue by reviving the Nabatean flood control system. Using modern documentation, monitoring and modelling tools to assess the system and ancient flood control measures to tame the torrents and harvest the flood water for useful purposes.

# **HIGHER EDUCATION FOR YOUNG SYRIANS AND JORDANIANS PROJECT**

---

EDU-SYRIA is a framework that helps Syrian refugees in Jordan and underprivileged Jordanians from refugee host communities to gain access to higher education through a set of scholarship programs. EDU-SYRIA supports the “No Lost Generation” strategy, which aims to provide those affected by the conflict with the chance to shape a more stable and secure future.

The project consists of two components: EDU-SYRIA I and EDU-SYRIA II. German Jordanian University (GJU) manages both projects under the name of GJU president Prof. Manar Fayyad as the project director and Dr. Dhiah el Diehn Abou-Tair as the project manager.
