# **HIS MAJESTY KING ABDULLAH II**

“Dear Chancellor Merkel, I can say that I am very satisfied with our cooperation on a bilateral level. Above all, with such successful projects as the German Jordanian University. This is certainly one of the most successful projects I’ve seen in my country in the last ten years. We hope that we can move forward on this basis even further.”

**HIS ROYAL  
HIGHNESS  
CROWN PRINCE  
AL-HUSSEIN BIN  
ABDULLAH II**

# **PRESIDENT OF THE GERMAN JORDANIAN UNIVERSITY**

Prof. Manar Fayyad

Your Excellencies, distinguished guests, parents and graduates,

**Welcome to GJU's 10th Graduation Ceremony.**

Allow me to start by telling you that this is not going to be an ordinary speech because if you look around you, we are not an ordinary university, and you... my dear graduates, are certainly not ordinary students.

Today, we celebrate an extraordinary Tenth Group of exceptional students, each with a unique set of skills and attributes to offer. The outstanding education you have received throughout your time here has given you the opportunity to stand out; to discover who you truly are, and to

celebrate your individuality. Your special teachers have equipped you to take on the world, and face any challenge head on... and for that, I thank each and every one of you: our outstanding Professors, Doctors and teachers.

Among us today are no ordinary parents either. These mothers and fathers have supported their sons and daughters, and watched them grow into the men and women they are today. They smiled bravely as their children left the nest and traveled to Germany to continue their studies, and they trusted them with an open mind and loving heart. So, thank you! Thank you to every parent; thank you for allowing them this extraordinary opportunity.

Our dear students, be proud of your distinctive education, and of all the time and effort you have put in. But most importantly, be very proud of where you come from and maintain the reputation we have built together. Not only do you represent the German Jordanian University, not only are you ambassadors of Jordan to the world, you are the beautiful souls that will impact the lives of everyone around you, so take that power and fly with it.

**God bless you all.**

## **UNIQUE FEATURES**

- SBSH prepares GJU students to become proficient in the English language by their third academic year.
- We train our students to face the real world through promoting Intercultural Communication; Soft Skills; Leadership and Emotional Intelligence; and Entrepreneurship and Enterprises.
- We arm our students with the basics of Physical Sciences and Mathematics that will help them think critically of the various engineering problems that they will face in their professions.
- SBSH faculty members are heavily involved in interdisciplinary research projects with most of the engineering specializations faculty members at GJU.
- SBSH faculty members were able to obtain funds for many research projects from many international research funds such as DAAD, Erasmus plus, Jordanian Scientific Research Fund, DFG, among others.
- National Education faculty members at SBSH were pioneers in achieving an online National Education course through the EDRAAK platform, which is shared by many other Jordanian Universities.

# OFFICE FOR INDUSTRIAL LINKS

DIRECTOR  
Britta Kähler

# OFFICE FOR INDUSTRIAL LINKS | MISSION

---

One of GJU's main features is the university's strong cooperation with the industry. To foster this collaboration, the Office for Industrial Links (OIL) was established in 2009. It is responsible for building up and facilitating sustainable university-industry partnerships by organizing special business events, lectures, workshops, and company presentations, and providing career services for its students and graduates. Further, it is strongly involved in GJU's alumni and entrepreneurship activities.

Every year, floods in Petra pose a dire threat to the residents, guests and monuments of Petra. Flash floods occur with little warning, and the narrow channel formed by the Siq and the courtyard of the Treasury become inundated with water. Obviously, this is of great concern to the Petra Development and Tourism Regional Authority.

With funding from the US Ambassadors Fund, CSNACH is the process of tackling this issue by reviving the Nabatean flood control system. Using modern documentation, monitoring and modelling tools to assess the system and ancient flood control measures to tame the torrents and harvest the flood water for useful purposes.

# **LEGAL CONSULTANT OFFICE**

ADVOCATE AND LEGAL  
CONSULTANT  
Omran Hawawsheh

We serve GJU with the highest quality of legal services on both local and international levels. Furthermore, among our duties is to coordinate, follow up and close monitoring of all legal issues with the GJU departments. We advise GJU on all legal issues related to its operations and activities including drafting, reviewing and monitoring all kinds of agreements, contracts and memorandums of understanding.

# **INTERNATIONAL PROJECT OFFICE**

DIRECTOR  
Rasha Al-Homoud

The main mission of the office is to provide administrative support for faculty members at GJU, promote the University abroad successfully and execute the projects that are funded by international programs and agencies. In particular, the International Projects Office main tasks are:

- Facilitate faculty participation in the international projects related to the higher education capacity building, consultations, collaborations, and academic development.
- Assist faculty members to develop proposals, agreements and contracts of the grants and provide them with all necessary information and resources.
- Provide project coordinators with administrative and logistics support to accomplish the project activities.
- Help project coordinators to ensure the fund agreements, contracts and regulations are applied.
- Provide networking with international universities and funding agencies.

**HIGHER  
EDUCATION  
FOR YOUNG  
SYRIANS AND  
JORDANIANS  
PROJECT**

---

EDU-SYRIA is a framework that helps Syrian refugees in Jordan and underprivileged Jordanians from refugee host communities to gain access to higher education through a set of scholarship programs. EDU-SYRIA supports the “No Lost Generation” strategy, which aims to provide those affected by the conflict with the chance to shape a more stable and secure future.

The project consists of two components: EDU-SYRIA I and EDU-SYRIA II. German Jordanian University (GJU) manages both projects under the name of GJU President Prof. Manar Fayyad as the Project Director and Dr. Dhiah el Diehn Abou-Tair as the Project Manager.
