Matching Grant (GJU, HTU, JUST); Grant ID: MAT_NS_01/2025

Funding Amount: 60,000 JDs (\$84,627)

CAVIAR: is a project that is intended to develop a culturally sensitive and linguistically diverse AI-assisted VR platform for healthcare training. It integrates real-time verbal, nonverbal, emotional, behavioural and contextual cues and interactions in multilingual dialogue. It aims to improve health education outcomes for students and healthcare professionals by simulating realistic clinical encounters using adaptive AI-assisted VR technology.
