I am a transport engineer with 8 years of professional experience in urban mobility planning, traffic management, road safety management and infrastructure design. I hold two Master's degrees, which have strengthened my expertise in transport systems and strategic development. My career includes key contributions to reviewing the BRT II project, designing depot sites, developing intersection geometry designs, conducting road safety audits, and leading the rehabilitation of Isteqlal interchange to improve transport and traffic conditions. Alongside my technical expertise, I am recognized for strong communication skills, fast learning ability, and a constant drive to explore and apply the latest innovations in the field of transportation engineering.

#### Education

##### MSc in Road Safety Management

University of Saint-Joseph, Beirut (2019-2021)

##### MSc in Transportation Engineering

University of Jordan, Amman (2016-2019)

##### BSc in Civil engineering

Al-Balqa' Applied University, Amman (2010-2015)

#### Work experience

##### Transportation Engineer (2020-present)

Design and Studies Department, Greater Amman Municipality.

##### Site Engineer (2017)

Manaseeb consulting engineering

##### Transportation Engineer- Trainee (2017)

Transportation Planning Department, Greater Amman Municipality.

##### Quantity Surveyor (2016)

Eng Akef Abu Hajar for Contracting.

##### Traffic Engineer- Trainee (2015)

Traffic Control Department, Greater Amman Municipality.

#### Skills

**Computer skills:** iRAP, ArcGIS, Civil 3d, Land CAD, SPSS, Synchro software, Visum, AutoCad 2d, Adobe Primer Pro.

**Other skills:** Research, Planning, Data analysis, team-working, multi-tasking, Photography.

#### Certifications

- Advanced Civil 3d course, Jordan Engineers Association 2023.
- PTV Visum, PTV Group, 2021.
- ArcGIS, Greater Amman Municipality, 2020.
- International Road assessment program, iRAP, 2019.
- Statistical Package for the Social Sciences by Eva training and consulting, 2018.
- Quantity surveying course by Jordan Engineers Association, 2015.
- Reading and interpreting construction drawings by Jordan Engineers, 2014.
- Prokon course by Jordan Engineers Association 2013
