Launching the Green Entrepreneurship Training Program at GJU

The Green Entrepreneurship Training Program was launched in partnership between the German Jordanian University (GJU) and the Business Development Center at the Deanship of Innovation, Technology Transfer and Entrepreneurship (DI-TECH).

- ADAPT₂JOB ® - PARTNERING EVENT - “DIGITAL SOLUTIONS AND SUSTAINABILITY”

What are the important technology trends and how new technologies can help to build sustainable solutions for companies to improve their business applications?

The adapt2job team from Germany, Prof. Dr. Edda Pulst (Westphalian University) and Dr. Markus Reifferscheid (SMS Group) conducted a dedicated workshop for Jordanian companies to strengthening the employment orientation of Higher Education programs through a better collaboration between educational institutions and companies. They introduced the adapt2job dual education methodology, provided joint understanding of technologies for sustainable solutions, discussed the expected impact on business and the students' employability and how to get a better guidance of the students' work during upcoming workshops.

GJU Conduct a Workshop on “SOCIETY, RELIGION AND SUSTAINABLE DEVELOPMENT IN THE ARAB WORLD - IDEOLOGIES, ETHICS AND PRACTICE”

The School of Applied Humanities and Languages (SAHL) - Department of Social Work at the German Jordanian University (GJU) held a workshop entitled "Society, Religion and Sustainable Development in the Arab World - Ideologies, Ethics and Practice." A project with the Humboldt University of Berlin HU, represented by the RCSD Research Program in Communities for Sustainable Development.

Sustainable Architecture Workshop : Alternative Solutions and Local Initiatives

On Tuesday, October 11th, 2022, the department of Architecture and Interior Architecture at the German Jordanian University (GJU), in coordination with the French Embassy in Jordan and the French Institute of the Near East (IFPO) hosted the “Sustainable Architecture Workshop: Alternative Solutions and Local Initiatives” at the German Lounge as part of the Environment and Climate Week activities.

The workshop was aimed at professionals, students, and the general public to increase awareness of alternative solutions and local initiatives for a sustainable architecture in Jordan. The workshop consisted of several presentations given by local experts on the definition of sustainable architecture and the challenges facing it in Jordan, as well as sharing examples of local projects built using traditional methods and materials.

The Launch of the Green National Network in Jordan From GJU

The Business Development Center (BDC), in cooperation with the German Jordanian University and in partnership with SwitchMed, launched the Green National Network under the patronage of the Ambassador of the European Union in Jordan, Maria Hadjitheodosiou, and in the presence of the President of GJU, Prof. Ala'aldeen Al-halhouli, and General Manager of BDC, Ghaleb Hijazi.

The program comes within the Green Entrepreneurship Project in Jordan and is funded by the European Union for Mediterranean countries. It aims to develop the capabilities of local communities and institutions to provide a high and distinguished level in the field of supporting green entrepreneurship by transferring the best methods of analysis, development, and sustainability to all entrepreneurs, in addition, to making it available in an electronic platform.

GJU Signs a Memorandum of Understanding the young Women's Christian Association

The German Jordanian University (GJU) and the Young Women's Christian Association (YWCA) signed a Memorandum of Understanding (MoU) to cooperate in vocational training and conducting training programs of mutual interest.
