

German Jordanian University:
The Best of Both Worlds

Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification and halt and reverse land degradation and halt biodiversity loss

The Greater Amman Municipality and GJU Sign an Extension Agreement to Restore the Residence of Ibrahim Hashem

The Greater Amman Municipality and the German Jordanian University (GJU) signed an extension to the cooperation agreement between the two parties to restore and rehabilitate the residence of former Prime Minister Ibrahim Hashem in Jabal Amman.

The agreement embodies the partnership with the German Jordanian University and the local community within the Municipality's plans and efforts to protect the cultural and historical heritage of Amman by preserving the city's heritage landmarks, especially the homes, and restoring its brilliance to remain in the memory of the homeland and future generations.

DR. Al-Halhouli Inaugurates the Research Project Site for Smart and Sustainable Agriculture

Dr. Prof. Ala'aldeen Al-Halhouli, the President of the German Jordanian University, inaugurated the Research Project Site for Smart and Sustainable Agriculture, which is affiliated with the School of Natural Resources Engineering and Management at the University.

During the inauguration, the Dean of the School and the Principal Researcher of the Project, Dr. Qasem Abdelal, provided a detailed briefing on the techniques of water agriculture and the use of smart agricultural technology to reduce water and energy resources.
