German Jordanian University: The Best of Both Worlds

**Promote sustained,
inclusive and sustainable
economic growth, full and
productive employment
and decent work for all**

The Consultation and Training Center at GJU Obtains the Vocational and Technical Training and Educational License

The Consultation and Training Center (CTC) at the German Jordanian University (GJU) obtained a vocational and technical training and education license from the Vocational and Technical Skills Development Authority, whose board of directors is chaired by the Minister of Labor.

The license enables the CTC to provide training and vocational education services in administrative, financial, computer, agricultural, pharmaceutical, renewable energy, water and sanitation, construction professions, blacksmithing, welding, carpentry, and decoration.

Dual Studies at GJU

“Dual Studies” is a global educational concept that aims to integrate the theoretical knowledge with the practical implementation in close cooperation with industrial partners. After the successful implementation of a pilot program, the German Jordanian University (GJU) launched its first Dual Studies track in 2018 with the support of the German government implemented through GIZ.
