

School of Applied Medical Sciences

M. Sc. in Vision Rehabilitation

Credit Hours: 34 credit hours, Thesis track.

Unique Features:

- Developing capacity in the field of vision rehabilitation and fill the scarcity of professionals in the region.
- Courses delivered by international renowned experts combining theory with hands-on activities.
- Explore the possibilities of formal evaluation in the future to determine the cost of effectiveness of rehabilitation services for people with visual impairment.
- Provide strategies to support the development of children, with complete or partial vision loss, as well as techniques to support their education.
- All classes are conducted at GJU Vision Training Center, Al-Jubaiha.

Academic Requirements:

Undergraduate Degree, from a recognized university, with a minimum merit of GOOD, in education, rehabilitation sciences, optometry, nursing or other disciplines relevant to vision rehabilitation. An average of "good" does not necessarily guarantee acceptance in the program.

English Language Requirement:

A minimum TOEFL score of 80 out of 120 on an Internet based test (iBT), or a minimum IELTS (International English Language Testing System) score of 6.o. Students, however, can register as "Special Students" for one semester at GJU provided that they pass the test before the end of that semester.

Required Documents:

- Official bachelor degree transcript and certificate (2 copies), stamped by the Ministry of Higher Education and Scientific Research in Jordan
- Certified photocopy of passport
- Certified photocopy of personal identification card (ID) - for Jordanian students only
- · 3 personal photos
- Recommendation letter
- TOEFL / IELTS International results
