Vision
Mission
Core Values

The University

Vision - Mission - Core Values

Vision

The German Jordanian University aspires to become one of the region's leading universities, highly regarded for its applied learning and teaching excellence, focused research and enterprise, multiculturalism and effective engagement with the community.

Mission

The German Jordanian University is a public comprehensive university devoted to academic distinction in teaching, research and community service. The conduct of researches, scholarships and creative activities is at the core of the university's multiple missions of education, research, service and outreach to the nation, region and beyond.

GJU is committed to advancing Jordan and the region through the benefits of higher education, offering bachelor's through doctoral degrees as well as a variety of outreach and vocational training programs. The university's hallmark is a culture of engagement that bridges theory with practice by implementing practice-oriented teaching and applied research programs.

Core Values

The University is committed to the values of:

- Academic quality and relevance to market needs, technical excellence and experiences in modern sciences and technologies.
- Integrated learning, cultural diversity and multi-language skills.
- Knowledge of contemporary issues and preparation for professional practice and global and societal leadership.
- High ethical standards and character, including integrity, responsibility, honesty and respect for others.
- Desire and skills for life-long learning for personal and professional development.
- Progressive and motivating climate to foster creativity and innovation.

The people and the Organization

Dear Graduates,

Congratulations!

I am very proud of each and every one of you on this day, and I do wish you all good luck and great success in the coming era of your life.

This year's graduation comes at an important juncture and while we are about to accomplish a significant milestone in GJU's journey. The tenth anniversary of our beloved university is expected to be launched in the coming May of 2015. I feel very lucky and proud to witness this great event in my capacity as president of this great university. In its first decade, GJU has managed to establish an acclaimed status amongst the various universities operating in the Kingdom. Great efforts have been made by all GJU previous and present staff & leadership, in order to achieve this great reputation of a successful and unique example of Jordan's high education.

Today, GJU has 4000 students, 350 of whom are graduates. This number will continue to increase while, at the same time, keeping the university doctrine of offering high quality education. Currently, the university is offering 17 undergraduate programs and 6 graduate programs. Additional programs are expected to see the light in the foreseen future, in keeping with the University goals and mission to produce highly skilled and well-trained cadres and professionals.

Over the past years, the university has witnessed a successful experience of interaction with the local community, following a knowledge-based development strategy. The university adopts a multi-campus system, as some of its schools and academic activities are operating in Amman, while the majority are in the main campus of Naour. Last year, the university decided to have its School

of Architecture and Built Environment housed in the old and historic area of Jabal Amman. With the positive impact that it had on the ground, this decision made GJU a true and constructive partner of the city of Amman. The university also enjoys long-standing partnerships with the private sector in Jordan, an example of which is the partnership it has reached with Talal Abu Ghazaleh group in relation to its elite and high-caliber MBA program.

Over the past decade, GJU has been investing in its partnerships with German institutions of higher education and industry by applying a double and parallel strategic approach. First, by adopting a new methodology of curricula and instruction whereby the model of applied science universities adopted in Germany, is implemented alongside the theoretical aspect of the programs. Secondly, by promoting knowledge transfer. In that, the University has managed to forge links with a consortium comprising more than 90 German universities, with Magdeburg as head of this consortium. Hundreds of our students go to join our partner universities in Germany during their fourth year of study, in addition to hundreds of them joining German companies. Gladly speaking, our students have proved capable of beating the challenge and coping well with the demands of a new and challenging education.

Another major achievement of GJU is the fact that it is working closely and effectively with DAAD to establish the distinguished partnership that we are currently enjoying. Such relation goes back to the early years of GJU inception. Since then, the University has been enjoying generous support from DAAD, as well as from all its German partners, namely the German Ministry of Education and Scientific Research; The State of Saxony-Anhalt; Magdeburg University; and the German Embassy in Amman. Truly, their support has rendered students' mission easier and made it possible.

I strongly believe in the importance of this relationship, and, therefore, will strive to further develop and sustain this cooperation with the DAAD office. In the upcoming years, the university has plans to expand the range of its German partnerships both at the undergraduate, graduate and professional levels of its academic programs. Some of the graduate programs are planned to be in collaboration with German universities. In this context, I am pleased to announce the beginning of our new program of Arabic Language and Culture, which focuses on teaching Arabic for non-Arabic speaking Europeans. Collaboration has also been explored with reputable local institutions. Our collaboration with Princess Sumayya University of Technology in establishing a joint graduate program in Enterprise System Engineering is one example to cite in this regard. I am proud to say that this program is the first joint endeavor with a Jordanian university.

Once again, I would like to congratulate our graduates on their perseverance and hard work that qualified them to earn their degrees and certificates. I do wish them a prosperous career and academic life ahead, and I trust and hope they you will always remain faithful to their Alma Mater.

Thank you all again and again.

Herzlichen Glückwunsch

Dear students,

I have just finished your entrance exam papers, it was yesterday; and now you are graduating!

I do remember many of you in their initial courses, your complaints about how harsh our college is, and your questions of what will come. Well, it came. The question now is what will come ahead.

Whenever I am asked to write such words, thousands of images jump to my mind making it difficult to write about any; images of your faces in at entrance exam, within the courses, near the small pond with ducks, you shouting in the halls, your teachers telling you to bring back the chairs to the rooms, and your joys and tears at the juries and out of the exams, in short; images that turned our job into a beautiful life.

That's why the only thing I can really write is that; In behalf of all your great teachers who made you the best graduates that you are, I salute you and wish you all the best to come.

Department of Pharmaceutical and Chemical Engineering

School of Applied Medical Sciences

Dear SAMS Graduates,

On behalf of the School of Applied Medical Sciences family at GJU, I extend my sincere congratulations and best of luck to the school's Class of 2013/2014. Through your five years journey you have served as ambassadors for the school and continued our mission in building upon GJU's reputation for excellence. I am sure you will remember your moments at GJU, and your experience in Germany with a smile that you were up to the challenge. Your GJU experience widened your horizon and developed your way of thinking to meet the requirements of today's world. With your graduation the doors to the world are opened to you so consider choosing the best and learning from the past. I am sure you will do exceedingly well in your future career life.

Congratulations on getting through the easiest part of your life. The entire School of Applied Medical Sciences Family is very proud of you.

Take care,

School of Applied Technical Sciences

Dear Graduates,

On behalf of the administration and faculty of the School of Applied Technical Sciences at the German Jordanian University, I would like to extend my sincere congratulations to you for having successfully fulfilled all requirements for an engineering degree from the School of Applied Technical Sciences.

This is the moment that you have been dreaming of ever since you stepped into the portals of GJU. You have gained that self-respect after rising up to the expectation of your school, loved ones, community, and country. You have acquired the confidence that you need to get. You have prepared yourself professionally and ethically. We are proud of your outstanding achievements during the past few years, and we are very pleased with the technical skills you gained. We look forward to seeing you become distinguished engineers that our country can be proud of.

As more and more of you graduate, the future of our beloved Hashemite Kingdom of Jordan becomes brighter. We are confident that you are fully equipped to succeed in your respective fields. We are optimistic that you will use what you have learned to make a difference in our future. We are confident that you will be commendable GJU ambassadors to the world.

Dear graduates, when you graduate from GJU, you leave with more than just an education. You leave with friendships and memories that you would treasure for life. You leave with the potential and freedom to make your own choices. We are confident that you will lead successful careers with the power to face challenges and responsibilities towards your community and country. We look forward to your great future accomplishments.

Graduation need not be a final parting. We will always be glad to welcome your return as alumni. We wish that you would maintain strong ties with your school.

Mechatronics Staff Attend TEMPUS Training on KUKA Robot in Germany

In June 2014, staff members from GJU joined a TEMPUS funded training on KUKA industrial robots held at Hochschule Bochum in Germany. The TEMPUS project aimed to establish mechatronics related training courses for working engineers in the fields of industrial robots, process control and mobile robots. Equipment valued at around 50,000 Euros was received at GJU through the project.

Mechatronics Graduation Project with Fraunhofer in Stuttgart, Germany

This project was performed in Germany at Fraunhofer in Stuttgart by Omar Diab. It was advised by Eng. Valentin Schmidt (Fraunhofer) and Dr. Nathir Rawashdeh (GJU). It entailed the development of a cable robot designed to control an end-effector in an enclosing frame through the synchronized actuation of ropes the end-effector was attached to. The work included the design of mechanical parts and programmable logic based control algorithms.

Mechatronics Graduation Project with Coca Cola in Madaba, Jordan

This project was performed at the Coca Cola factory near Madaba – Jordan by Ali Tillawi. It was advised by Eng. Fadi Al-Madi (Coca Cola) and Dr. Nathir Rawashdeh (GJU). The work performed included the development of a real-time imaging system and image processing algorithms for the detection of incorrectly composed crates of soft drink

Mechatronics Graduation Project with KADDB and KAFD in Jordan

This project was funded by the King Abdullah II Fund for Development (KAFD), and administered by the supported by King Abdullah II Design and Development Bureau (KADDB). The work entailed the design and implementation of a tele-operated six-degrees of freedom robotic arm capable of lifting 20 Kg at an extension of 2 m. The main application was the disposal of explosive ordinance. Advised by Dr. Jumana Abu-Khalaf at GJU, the work was performed by Asem Almatan, Mohammad Abdullah, and Omar Olwan.

Mechatronics Graduation Project: Tele-presence Mobile Robot

This project was performed by Ibrahim Musleh, Omar Thawabi and Dr. Nathir Rawashdeh. It entailed the development of a tele-presence robot that enabled a user to participate in meetings or presentations from a distance. The movement of the differential drive robot could be controlled from a distant computer and enabled video conferencing. One application example was to enable a medical doctor to visit patients in different hospitals without physically being there.

Joint Mechatronics-Biomedical Project: Muscle Controlled Bionic Hand

Students Mohammad Okal and Mohammad Alfataftah from the Mechatronics Engineering Department and the Biomedical Engineering Department designed and built a muscle controlled bionic hand prototype for their graduation project. The main goal of this project was to enable amputees to regain basic limb movements such as opening and closing the hand. The work was advised by Dr. Jumana Abu-Khalaf (mechatronics) and Eng. Jumana Ma'touq (biomedical).

Mechatronics GJU Robotics Club Organizes “BattleBots” Competition

The recently established GJU Robotics Club managed through the past year to leave its mark on GJU, reaching out to eager students and doing its best to raise interest in the field of robotics as well as engineering as a whole. The club held various and distinct workshops in robotics, programming, and smart control. By the end of the spring semester, the club organized “Battlebots”; a competition where teams design and build autonomous combat robots to demonstrate their creativity, engineering skills, and strategy. The competition took place on the 8th of June at GJU in the presence of Prof. Natheer Abu Obeid and Prof. Manar Fayyad. It was sponsored by IRA (International Robotics Academy), where first and second place winners were rewarded for their outstanding performance.

Department of Communication Engineering

School of Computer Engineering and Information Technology

Dear Graduates of the School of Computer Engineering and Information Technology (SCEIT),

It gives me a great pleasure to congratulate you on the occasion of graduation. Congratulations to your families who waited long for this moment. Your families are proud of you and your achievement.

Graduates of SCEIT,

You finally reached this day. It is a dream come through. We are proud of you. You are the ambassadors of GJU to the world.

Supported by Science, knowledge and wisdom you have gained at GJU, we are confident that you will give a bright image about your school.

Being a graduate of GJU is a big responsibility not only towards your University but also towards the newcomers at GJU. You will establish the reputation of GJU to them. So, I encourage you to stand up to the challenge. Be the best as you can, we have so much faith in you.

My Dear Graduates of SCEIT,

You have earned this moment, and you have all the right to enjoy it. But at the same time, keep an eye on the future and plan well for your next period in life.

My best wishes to you and may Allah bless you all.

SAP Competence Teaching Center

The SAP Competence Teaching Center (CTC) at GJU has continued with its offering of three-day training “SAP Systems Navigation” courses in September 2013, February and July 2014. About 70 students have successfully participated in the training course with majors from the School of Computer Engineering and Information Technology, the School of Management and Logistic Sciences, the School of Applied Technical Sciences, and the School of Natural Resources Engineering and Management. The course aims at offering hands-on SAP experience based on exercises and case studies in the following areas: Business Processes: Sales & Distribution, Materials Management, Financial Accounting, Controlling, Production Planning and Execution. SCEIT is anticipating continuing on offering its training courses over the next academic year 2014-15.

In coordination with SAP CTC, the School of Computer Engineering and Information Technology hosted a one-day basic training course in Design Thinking for some 20 students from GJU and Princess Sumaya University of Technology (PSUT) on May 26th, 2014.

IT Club

IT Club has been re-established for the academic year 2013/14.

From April 17th to June 12th, the IT Club organized an introductory Android Programming course with 7 sessions. The course was based on a hands-on approach to learning the SDK (Software Development Kit). Students developed mini-projects along the way. Their final project was a fully functional Tic-Tac-Toe game against the computer using Artificial Intelligence. The course was taught by the CS student George Khoury.

On Tuesday, June 3rd 2014, a special event “project fair” was organized by the GJU IT Club with support of the Deanship of Student Affairs. Students from the School of Computer Engineering and Information Technology (SCEIT) at GJU presented their projects to other GJUers. The event was based on the idea of bringing SCEIT’s technology-related majors a bit closer to everyone else, and to show the out-of-the-box creative thinking styles required in IT. The students were very excited about presenting their work, and their excitement was met with interest from other GJUers. The projects were very diverse, and from different fields, focusing e.g. on mathematical and logical problems, graphical user interface designs, and mobile applications. In addition to the project presentations each station had a set of puzzles or riddles that participants could solve, ultimately aiming to introduce them to an IT-related topic without using the IT jargon as well as to the kind of thinking required in computing and communication majors. The GJU IT Club will make this project fair an annual event hosted by the club.

The club is planning a lot of new and fun activities for students in 2014/15 and hopes that a lot of students will join.

In the Spring semester 2014, Dr. Ala' Khalifeh from the Department of Communication Engineering was invited to attend the International week at Hochschule Bremen, one of GJU partner universities, where he gave a crash course on audio digital signal processing, presented his research work, and also discussed some potential joint projects between GJU and HS- Bremen.

Flying Faculty

October 2013, the exchange coordinator of SCEIT Dr. Christina B. Class participated in the 10th German IT Network meeting which was held in Darmstadt, Germany. The Network comprised of 15 German partner universities of applied science supporting SCEIT in curricula development, project cooperation, hosting students in their German year and supporting them in the internship in German industry.

March 31st 2014: Prof. Harald Baier from Darmstadt University of Applied Sciences gave a lecture "On the Diversity of Higher Education" to academic staff at GJU.

April 2014: Prof. Harald Baier from Darmstadt University of Applied Sciences gave a "Seminar in IT Forensics."

April 2014: Prof. Bettina Harriehausen-Mühlbauer from Darmstadt University of Applied Sciences gave a two day introductory course to Natural Language Processing for GJU students and staff.

August 19th 2014: Prof. Thomas Risse from Bremen University of Applied Sciences gave a lecture on Teaching Math to CS Students Using SAGE Open Source Platform.

August 2014: Prof. Thomas Risse from Bremen University of Applied Sciences offered a two week introductory course on "SAGE- an Open Source Computer Algebra System."

Department of Energy Engineering
Department of Water and Environmental Engineering

School of Natural Resources Engineering and Management

Dear Graduates

Congratulations to all of you and to the faculty, staff, family, and friends.

I would like to start by especially recognizing and thanking your families who have been there for you; providing you with their precious advice, encouragement and support.

Nowadays and more than ever, the contribution toward solving energy, water and environmental challenges in Jordan and worldwide rely on advanced skills and higher-order thinking of the kind you've developed and refined at GJU. With your skills and talents across so many disciplines—from water and environmental engineering to energy and renewable energy engineering, you can help in building a sustainable better place for everyone. I am quite confident that problems such as water scarcity, environmental pollution, the need for cleaner technology, climate change, and moving toward renewable energy will benefit from your input as talented professionals with first class GJU education.

Finally, you have earned my congratulations and good wishes. I would like you to hold fast to your dreams, have confidence in your skills, and use your talent to help others. I am sure you can create a meaningful, fulfilling future for yourselves and a better world. We at GJU are counting on you to convey our message to the world.

Workshop on water governance and social aspects of water management

That workshop was conducted in February of 2014. Visitors from Humboldt University met with the Vice President of the German Jordanian University, Dean of Graduate Studies and Scientific Research, Dean and Representatives of school of Natural Resources Engineering and Management and School of Management and Logistic Sciences. The meeting focused on social sciences and the impact on the water problem. Out of that workshop, a conference held in September was planned and conducted.

A conference on “Social Water Studies in the MENA Region”

The conference was planned during the workshop mentioned above. It was conducted in September and had high-level participation. It was attended by HRH Prince El-Hassan Bin Talal, The German Ambassador, representative of the ministry of water and irrigation, in addition to a number of international and local academics. The conference lasted two days and was followed by a closed workshop with key stakeholders participating in. Faculty members of the Department of Water and Environmental Engineering moderated several sessions.

Lecture by HE Samir AlRefa'i

The lecture was organized by the School of Natural Resources Engineering and Management. Several attended both from the University and from the Local Community. The lecture addressed HE's view on several political issues.

Kickoff meeting for the Research project between the Water and Environmental Engineering Department and the Research Center of Julich (FZJ), Germany

Two senior researchers from FZJ visited the School of Natural Resources Engineering and met with several faculty members. The research involved investigating Jordan's water resources and developing a mathematical model to simulate the different components of Jordan's water budget. The visiting team held discussions with the vice presidents and the deans of School of Natural Resources Engineering and School of Graduate Studies and Scientific Research, in addition to several faculty members. The visit was followed by another visit by Dr. Qasem Abdelal in October of 2014 to the center in Germany in which an update on the current state of the project was given to the German counterparts and a roadmap for the future work was laid.

A meeting with the German partner Universities

A meeting with representatives of several partner universities was held in May of 2014. The meeting discussed several issues related to exchange students and academic courses.

Several faculty members and teaching assistants of the School participated in the Train the Trainer Program for exchange of academic staff between Jordan and Germany during the summer of 2014.

Several faculty members have participated in local and international conferences on Water and Energy.

School of Languages

It is that time of the year where I am honored to congratulate the graduates of the School of Languages on their well-deserved accomplishments throughout their years of studies at GJU. Looking at our students today, I am glad to have been part of this growth and academic achievement. I commend them for their diverse personalities and ongoing search for knowledge. Their acceptance of others is highly praised and recognized both locally and internationally. The diverse projects they have undertaken at the School have proven time and time again their perseverance and dedication to their field of study. As a result, this has reflected onto the School in terms of its international recognition. In line with its continuous vision of growth and innovation, the School always strives to boast top academics and a strong research profile. With this goal in mind, our graduates have emerged as socially responsible, skilled in critical thinking and effective at communication, and go on to excel in their fields of study. I wish them every success in their future endeavors and professional lives.

Research Seminars, Conferences and Workshops

DAAD funded project: “Orientierung & Perspektiven, Hochschuldialog mit der islamischen Welt” (Orientation & Perspectives, Academic Dialog with the Islamic World)

As part of this project two translation workshops on the 18/9/2013 at Leipzig University and the 24/2-8/3/2014 (translation of scientific texts on renewable energy and longevity) with the participation of translation students took place.

4th Jordanian German teachers’ day at Goethe-Institute

2/11/2013 – The SoL conducted two workshops on “Filmprojekte im DaF Unterricht.” and “Lernmedien Deutsch als Fremdsprache aus linguistischer Perspektive am Beispiel der Modalverben“ on the 4th Jordanian German teachers’ day.

Workshop about the German Language teaching book “Aussichten”

5/12/2013 – The workshop at the School of Languages was held by Susanne Sermen, Oman.
d. 20/2/2014

2nd Arabic Digital Content Conference

Members of the Department of Arabic Language took part in this conference as part of the School’s active participation in conferences and support of advertising and promoting the School’s joint project with the Arabterm-Project implemented by GIZ.

5th Jordanian German teachers’ day at GJU

17/5/2014 – During the 5th Jordanian German teachers’ day Prof. Karin Kleppin (Ruhr - Universität Bochum) & Prof. Jörg Roche (LMU München) conducted a training seminar entitled: “Die Rolle der Sprachen in internationalen Studiengängen.” Dr. Annegret Middeke (Georg-August-Universität Göttingen) conducted a training seminar entitled: “Zur Lernerorientierung in der interkulturellen Landeskunde-vermittlung.” Another workshop of the School was entitled, „Herausforderungen eines fachorientierten Deutschunterrichts.”

Arabic Language Course for Non-Native Speakers

1-19/09/2013 - An Arabic course for non-native speakers was conducted at the School of Languages (GJU) for students of Islamic Religious Education and Islamic Theology from Westfälische Wilhelms-Universität Münster and for students of Arabic Studies / Islamic Studies from the Georg-August Universität Göttingen in cooperation with Amal Diab-Fischer (Münster). Colleagues from the Departments of Arabic and English Language took part in teaching Arabic as a foreign language to German students. Upon the request of the German Academic Exchange Service (DAAD) an intensive Arabic language program was designed for the 1st semester of the academic year 2014/15. In line with this idea of offering Arabic to non-native speakers, a training workshop was organized from 25-29/11/2013 to train trainee teachers to teach Arabic as a Foreign Language. This training took place at “Landesspracheninstitut an der Ruhr-Universität Bochum” (LSI) for 10 students of the MA DaF program at GJU (project funded by DAAD).

Exchange, Network and Partnerships

Translation for the Scientific Culture Society website

Second, third and fourth year translation students worked on translating several scientific articles for the society. The content of those articles covered the fields of aerospace, biology, technology and other related fields.

Intercultural Exchange Discussions Project

Students from GJU and the University of Rheinbach exchanged their cultural and everyday experiences through written journals and oral presentations as part of their English 202 course.

Train the Trainer Programme

Dr Reem Rabadi participated in the Train the Trainer (TOT) Programme for the Winter Semester 2013/2014. She worked at the Fachbereich Kommunikation und Medien (Department of Communication and Media) of the Magdeburg University of Applied Sciences. Her responsibilities included courses in Linguistics and English Competence for the postgraduate students of the MA Translation Programme Arabic/German /English.

Guest Speakers, Researchers and Flying Faculty

Prof. Christiane Nord 13-26/6/2014 - Taught “Principles of Translation” Course (BA Translation Program)

Dr. Annegret Middeke 14-20/5/2014 - Cultural Seminar (BA GER/ENGL)

Prof. Karin Kleppin 12-19/5/2014 - Conducted a course entitled: “Studies in Foreign Language Acquisition” (MA German as a Foreign Language)

Prof. Jorg Röche 13-18/5/2014 - Conducted a course entitled: “ Medien & Mediendidaktik” (MA German as a Foreign Language)

Prof. Hans Schwarz 21/10/2013-2/11/2013 - Taught “Specialized Translation I” course (MA Specialized Translation Program)

Carmen Michalsky 21/10/2013-2/11/2013 - Conducted the course “Subject Matter Competence I” (MA Specialized Translation)

Academic Fieldtrips & Out of the Classroom Activities

Mount Nebo Fieldtrip

A trip was organized to Mount Nebo and the Museum “La Storia” for First year students. The students benefited by delivering presentations about the trip in German.

Ajloun Reserve Fieldtrip

Another academic field trip was organized to Ajloun Reserve reinforcing out-of-the-classroom German and English speaking skills.

School Involvement at GJU

GJU Knowledge and Literary Competitions

Arabic lecturers organized and took part in the GJU Knowledge and Literary competitions.

English Courses for employees and locals

English lecturers taught English at the university via the Consultation and Training Center (GJU).

Formation of Programs & Study Plan Improvements

New MA German as a Foreign Language Program

The new “MA German as a Foreign Language” Program was established

New BA German & English for Business and Communication

A new study plan “BA German & English for Business and Communication” was outlined

BA Translation Study Plan Revision

The study plan “BA Translation” was revised

Project application / evaluation for funding of the DaF-Project from 2015 till 2016

An evaluation of the DaF-Project through the DAAD by external professors was conducted and further funding of the project was granted

Department of Logistic Sciences

School of Management and Logistic Sciences

Dear Class of 2014,

Today, you will begin to face this new and daunting world. And a question that we might consider is how we could possibly have prepared you for the multiple and unforeseeable challenges that awaits you?

I hope we have done so by giving you three gifts. First, knowledge of your discipline entails competence in the practice of the profession. A second gift is the encouragement to unleash your vision. And, finally, I hope we have given you the gift of confidence. You must have the confidence to respect your own considerable capacities, and this will inspire you to act, whenever action is needed.

When you leave here, you will become leaders in your fields. You will face insoluble problems, indeed. But it is the wish of all your professors that you may encounter the adventures that lie before you with the same verve and intelligence, with the same pleasure and delight that you have displayed during your time here among us.

Come back and see us, and when you do, bring stories.

On behalf of this Faculty: Congratulations!

During the academic year 2013-2014, the School worked hard to strengthen the link, with the industry, by contacting companies to create MoU's with them to insure proper training opportunities for our students, as well as following up with our students and making sure they adhere to the training standards at GJU. Results were establishing communication with 25+ companies as well as signing an MoU big names in the local market

On behalf of the TAG-SB family, I extend a sincere congratulations and best of luck to the School's Class of 2014. You have been exceptional representatives of TAG-SB and The German –Jordanian University. I have no doubt that you will continue to serve as worthy ambassadors for the School by building upon our reputation for excellence.

I believe that our graduates are unique, regardless of your chosen area of practice; all of you have the opportunity to enrich the business lives of those around you. As you embark upon and progress through your careers, I urge you to always remember why you have chosen your MBA and the sacrifices that you endured in order to gain it: to serve our communities and improve the quality of life and to lead in business of its members with honesty and integrity.

Class of 2014... Congratulations!

TAGSB Students Win CFA Research Challenge

TAGSB Finance Major Students; Ms. Faten Al Zoubi, Mr. Khaled Shakhshir, Ms. Tamara Madanat, and Mr. Ayman Sharawi won the CFA Research Challenge which was held at the Four Seasons Hotel – Amman on March 11th, 2013. The group was supervised by Dr. Bana Abuzayed, Associate Professor of Banking and Finance at TAGSB and mentored by Mr. Aram Rabadi the Senior Analysts at Al Arabi Investment Group.

TAGSB team gained the highest combined score on both of the written report and the presentation which enabled them to win the First position over the local participating universities. The winning team from TAGSB been elected to the regional competition where the winners of the regional competitions advance to the global final.

Dr. Abuzayed participation in “Development Strategies: Country Studies and International Comparisons” Workshop

Dr. Bana Abuzayed participated in a workshop held in Shanghai between 11th and 16th of November 2013. This workshop has been organized by the East China Normal University (ECNU) and HTW Berlin. The Joint paper presented, titled: “Does Openness Enhance Financial Sector Development? The Experience of the Arab World”, was successfully accepted for publication in EuroMid Journal of Business Scopus Database.

Corporate Governance Course Hosts Guest Speaker

The MBA course, Corporate Governance, hosted Mr. Amer Husaini, Vice President/General Manager Of DELL/ Consumer Business/ Middle East and Africa from Dubai on November 30th, 2013.

TAG-SB hosts “Journey to Continuous Improvement in Jordanian Companies” Seminar

Talal Abu-Ghazaleh Graduate School of Business (TAG-SB) hosted an exciting seminar entitled “Journey to Continuous Improvement in the Jordanian Companies” on December 9th, 2013 at its premises.

The seminar was headed by Dr. Abdallah Abdallah, Faculty member of TAG-SB and a quality and management leader and hosted Eng. Abdallah Qatanany, Founder of (Continuous Improvement - Jordan) group on Facebook, as a guest speaker. The seminar was attended by TAG-SB alumni, students and interested governmental and businessmen.

TAGSB Participation in CFA Conference

Dr. Bana Abuzayed and a group of MBA Banking and Finance students attended a prestigious CFA conference that is constructed for the First time in Jordan during the period from 9th until 10th of April, 2014. Selected distinguished speakers from around the world been invited to share their experience with professionals, Advisors, Academics and specialists. Two days of brain storming sessions that benefited students and broadened not only their academic knowledge but also their networks with the well-known financial professionals in the region and globally

Corporate Finance Course Hosts Guest Speaker

To shrink the gap between academia and practice Dr. Bana Abuzayed invited Mr. Kalid Alnabulsi, CFO of Hikma Pharmaceuticals PLC as a guest speaker in the course of Corporate Finance to talk about “Challenges of a CFO” on the 6th of May 2014. Mr. Alnabulsi is an outstanding speaker who leads a journey with students that lasts for 2 hours with a magnificent interest by students to ask about realities behind published numbers.

TAGSB Students Participation in GARP Research Fellowship program

Dr. Bana Abuzayed is a University Chapter Director with Global Association of risk professional (GARP). As part of this effort, GARP announced the GARP Research Fellowship program for Spring 2014. This program is intended to support selected students enrolled in Masters-level programs within GARP’s global network. Specifically, number master students have applied for these awards by submitting an application and a research proposal.

TAGSB Students participation in Dubai Financial Markets simulation game

A group of eleven MBA Banking and Finance students with more than 2400 students from UAE and the region participated in Dubai Financial Markets simulation game under the supervision of Dr. Bana Abuzayed. The DFM simulation game started 23rd of April 2014 and ended on the 7th of May 2014. During the game students learned different investment techniques to be able to practice portfolio management in real world. Abed Alrhman Hariri won the First position within the participated TAGSB group who close his position with around 25000 AED. Many more students closed their position with a sufficient profit.

Deanships

Deanship of Graduate Studies and Scientific Research
Deanship of Student Affairs

Deanship of Graduate Studies and Scientific Research

The Deanship of Graduate Studies and Scientific Research is proud that GJU has proven to be one of the leading universities in Jordan. Our graduated students are very much in demand in the marketplace at large. The uniqueness of GJU's graduate programs is that it comes as a response to the market demand and the high tech needs of industry, management, and government. Many of our Master programs are joint programs with one or more German or local universities.

Scientific research at GJU is considered to be one of the vital roles of faculty members and help researchers to achieve their goals in research. This is done through providing funding of research grants, facilitating publication of research results and attendance of conferences. This year 2014 our faculty received four research grants from The Scientific Research Fund, which is the highest among all universities in Jordan.

As dean of the deanship of graduate studies and scientific research, I congratulate all our graduates for their achievements and shall pursue every possible venue that would pour into fulfilling the best interest of GJU students, faculty, the institution, and the development needs of Jordan.

Deanship of Graduate Studies and Scientific Research Achievements

The Deanship of Graduate Studies and Scientific Research is responsible for the following functions at GJU:

- Identifying, supporting, and rewarding excellence and achievement in research and applied sciences.
- Effective planning through building and developing its own information systems infrastructure to better deliver and plan its objectives.
- Increasing the research budget by dissemination, outreach and awareness of potential local and external sponsors and funding agencies.
- Supervision of research activities at GJU by approving research projects submitted to local/external funding agencies.
- Encourage industry businesses and companies to support research projects undertaken by faculty members.
- Building R & D capacity and set-up the enabling environment and services to individual and research group.
- Funding of students of Graduate Studies involved in projects, research or employment.
- Funding of publication of research by staff members as well as expenses incurred through participation in conferences and at which their research is presented.
- Distribution of available resources regarding services and facilities and their distribution among researchers.
- Ensure that our graduate students receive a well-rounded education, while ensuring that all administrative codes of academic discipline are fulfilled.

MoU between PSUT and GJU

Seminar about Abdul Hameed Shoman Award for Arab Researchers

Dear graduates,

Since the German Jordanian University goals have been represented in prepare a future leaders in all fields and participate within the community in achieving the sustainable development for our Jordan, the Deanship of Student Affairs has always been to stay in touch with your needs, your expectations, and your concerns side-by-side to improve the students' abilities, refine their talents and to highlight their achievements in all aspects in line with the process of developing the kingdom, relying on a comprehensive vision and a meaningful message, as the deanship is the center of creativity and innovation.

Therefore, the Deanship paid the student's Life outside the classroom the priority to enhance their skills through providing them with intellectual, cultural, artistic and sport activities, to help them having a balanced personality.

Dear students,

The Deanship of Student Affairs is making an effort to graduate a privileged and educated students, so I urge you all to keep the desire to learn more and change things around you and do not let any obstacles control your ideas and values. To face all forms of challenges in the light of a history that is very sensitive and complicated.

I am urging you all to work hardly and faithfully to develop the country and to contribute to building a prosperous Jordan.

Dear students,

The country hopes are vested in educated, cultured and conscious youth, aware of their role, having faith , making effort , trusting themselves and their country as well , here is a chance at various levels, be ready to the future challenges, seize the opportunity and be responsible .

We congratulate your parents and your country on your graduation, wishing you more progress and success.

The Deanship of Student Affairs aims to build-up the student personality at all levels physically, mentally, socially and psychologically, and to prepare them to be active leaders to face life challenges with a composed confident personality through its vital role in formulating not only a balanced but also an intellectual character of the Leaders of tomorrow through collaboration with all departments of the GJU and the university's wise administration. The role of the deanship of students' affairs varies from other deanships, as it is being the closest to the students and to local community.

The Deanship, since establishment in 2005, aspires to spread national, social, and cultural awareness. Being the focal link between the university and students, the Deanship is considered the closest school to the students in terms of safeguarding their interests, being directly involved in their activities and solving their everyday problems.

The Deanship has three departments:

Student Activities Department:

This Department is responsible of all the student activities at GJU. Art and cultural activities include the Musical Band as well as the singing and dancing activities, whereas sport activities include a number of sport teams: Soccer, Basketball, Volleyball, Athletics, Table Tennis, Billiards, and Badminton.

Student Services Department:

This Department is responsible of providing a number of services for the students such as, inancial services, student's fund, student's ID, cars permits, student's housing, student's Consulting, student's trips, Al-Hassan Youth Award, King Abdullah II Fund for Development, etc.

Student Clinic:

This department is responsible for the providing healthcare services and medical insurance for all the University students.

The Deanship is also responsible of the activities of GJU Alumni Club as well as the following student clubs at GJU:

- Community Service Club
- Local Community Development Club
- Arab and Foreigners Club
- Drama Club "We are all Jordan" Youth Club
- Health and Environment Club
- Information Technology Club
- IEEE Club
- GJUMUN Club
- Business Club

The German Dimension

Liebe Absolventinnen und Absolventen der Deutsch-Jordanischen Universität,

Die Deutsch-Jordanische Universität ist eine einzigartige Einrichtung. Vor zehn Jahren gegründet, hat sie sich zu einer der führenden Universitäten Jordaniens entwickelt.

Eine Vielzahl außergewöhnlich visionärer und engagierter Menschen haben das Projekt begleitet und diesen Erfolg möglich gemacht: Politisch Verantwortliche in Jordanien und in Deutschland, die Universitätsleitung, ihr Lehrkörper und die vielen Kolleginnen und Kollegen in Jordanien und in Deutschland, die helfen, die Universität und ihre Programme zu organisieren. All den bekannten und auch den weniger bekannten Mitwirkenden und Mitstreitern möchte ich meinen Dank und meine Anerkennung für Ihren Einsatz, ihre Kreativität und ihre ansteckende Schaffensfreude ausdrücken.

Einzigartig ist die Deutsch-Jordanische Universität aber auch aus einem anderen Grund.

Die Deutsch-Jordanische Universität ist eines der sichtbarsten und eindrucksvollsten Belege der Zusammenarbeit zwischen Deutschland und Jordanien. Sie ist die wichtigste Brücke des Austauschs zwischen Deutschland und Jordanien im Hochschulbereich.

Sie alle haben das letzte Jahr vor Ihrem Bachelor-Abschluss in Deutschland verbracht – ein halbes Jahr an einer der vielen Partner-Universitäten, ein weiteres halbes Jahr in einem Unternehmen. Keine andere Universität außerhalb Deutschlands bietet ein solches Angebot an.

In diesem Jahr waren Sie die Botschafterin oder der Botschafter Ihres Landes in Deutschland. Meinen deutschen Landsleuten haben Sie die besten Seiten Ihrer Heimat gezeigt – Ihre Großzügigkeit, Ihre Lebensfreude und Ihren Hunger auf Neues. Sie haben uns alle damit bereichert. Und dafür möchte ich auch Ihnen danken.

Bereichert fühlen Sie sich durch dieses Jahr in Deutschland hoffentlich selbst auch.

Deutschland ist von nun an Teil Ihrer Lebensgeschichte. Ich wünsche Ihnen, ich wünsche uns, dass in dieser Geschichte Deutschland in noch weiteren Kapiteln eine Rolle spielen wird. Wenn Sie nach Ihrem Jahr in Deutschland Orient und Okzident in sich tragen, dann sind Ihnen an der Deutsch-Jordanischen Universität nicht nur Sachwissen und Fachkenntnisse vermittelt worden, sondern Bildung in einem höheren Sinne. Denn wahre Bildung ist, die eigene Herkunft zu kennen, ohne von dieser den Platz im Leben endgültig zugewiesen zu bekommen.

Ich wünsche Ihnen für die Zukunft von Herzen alles Gute!

Ihr Ralph Tarraf

Botschafter der Bundesrepublik Deutschland im Haschemitischen Königreich Jordanien

Vice President for International Affairs: Prof. Anton Mangstl

The GJU is one of the largest and most successful German funded bi-cultural projects in the field of Higher Education. Its unique feature is the mandatory German Year, consisting of a study semester at a German partner university, and an internship in a German company. Nine years after its foundation, the GJU has gained an outstanding reputation in Jordan and the region. Its graduates have excellent career opportunities in the labor market and are amongst the best paid in Jordan.

After a successful evaluation, commissioned by the German Academic Exchange Service (DAAD) the German Ministry of Education and Research (BMBF) is supporting the development of the university through the DAAD until 2016. Attention will now be focused on the development of Master programs in cooperation with German partner universities as well as cooperative research and development (R&D) activities.

With respect to its German dimension one of the two Vice President positions is to be filled with a German National. Since 2011 this position has been held by Prof. Anton Mangstl.

The office of the Vice President for International Affairs acts as an interface between GJU, the DAAD, the German partner universities and the GJU Project Office (PO) at the Magdeburg-Stendal University.

The Vice President for International Affairs oversees the work of the

- International Office (IO)
- Office for Industrial Links (OIL)
- German Language Center (GLC)
- School of Languages (SoL)

Prof. Andreas Geiger Project Director
Christof Mühlberg Director, Project Office
Jenny Engelmann Financial Manager
Katrin Bombitzki Corporate Relations Manager
Grit Lehmann Students and Industry Relations Manager

Head of Project: Prof. Andreas Geiger

GJU Project Office (PO) combines all aspects of the largest German educational export project. The members coordinate the entire consortium of German universities involved in the support and establishment of the German Jordanian University in Amman. The PO is part of the Hochschule Magdeburg-Stendal (University of Applied Sciences), the leading university in the consortium.

Among other aspects, the PO is responsible for the German Academic Exchange Service (DAAD) grant and all the tasks involved in the administrative process. This also involves all application procedures for the extensive scholarship programs for GJU students and their allocation to those eligible in cooperation with the GJU.

Additional funds include administrative support as well as funds for the structural establishment of the GJU such as income support, Flying Faculty and funding for the establishment of new laboratories.

From 2009 on the PO broadened its focus from administrative tasks to the area of industry relations and public affairs. Over the last couple of years, extensive industry contacts have been established as well as a network of company contacts and excellent relations to various industry organizations.

Through these networks and in close collaboration with the Office of Industrial Links at GJU, an impressive number of students are placed every semester in their internships in Germany.

The PO in Magdeburg acts as the single point of contact for all authorities, institutions and companies in Germany to establish sustainable relations with the GJU.

Dr. Dorothea Jecht Director
Ajnadeen Sharabati Mobility Coordinator, Outgoings
Kristin Braehmer Mobility Coordinator, Outgoings
Fadi Altwal Mobility Coordinator, Outgoings
Azmi Nawayseh Mobility Coordinator, Incomings
Manuela Pelz Scholarships Coordinator

What we do: The mission of the International Office (IO) is to foster the internationalization of the German Jordanian University. Therefore we support GJU staff members and students for international academic experiences, facilitate the welcome services for international students and visitors and coordinate all German scholarship programs related to GJU. This academic year we could welcome Ms. Kristin Braehmer, Mr. Fadi Altwal and Ms. Manuela Pelz as new Coordinators at the International Office.

Facts and Figures: In the First semester 2013/2014 a total of 264 GJU students left for Germany to study at 60 partner universities. Another 173 students started their exchange year in March 2014. Additionally 169 students have left to Germany to take part in intensive language courses during Summer 2014, almost 40 of them on scholarships by the German Academic Exchange Service (DAAD) and the GJU Project Office Magdeburg.

At the same time the number of German incoming students reached 34 in First Semester 2013/2014 and 27 students arrived in February 2014. The IO offers for all incoming students an attractive preparation week prior to the start of the academic term as well as excursions and cultural events. Under the Flying Faculty Program we welcomed 23 German academics from 18 German institutions for teaching and research stays at GJU. Under the umbrella of the Train the Trainer Program altogether 23 staff members of GJU could perform a professional training in Germany with funds of DAAD and the GJU Project Office Magdeburg.

New Partners: One of our biggest challenges is the growing number of outgoing students leaving for Germany. The IO is permanently looking for new Partner Universities in Germany. GJU has acquired 82 partner universities and another 12 universities are regularly facilitating an informal academic exchange with our staff and students.

Britta Kähler Director
Dr. Emad Zabout Senior Advisor (CIM-Expert)
Stefanie Luniak Career Service Coordinator
Rehan Tarawneh Administrative Assistant
Eng. Yazan Darabseh Assistant

GJU's objective is to prepare highly skilled graduates with relevant industrial experience.

The Office for Industrial Links (OIL) supports this approach by building up strong relationships with the Jordanian and German industries intending that companies are ready to provide first-hand working experience for GJU students by offering internships and field trips. It organizes special business events, career days for students, lectures, workshops, and company presentations and focuses on innovation and entrepreneurship.

The OIL acts as facilitator between faculty and local and German industry in order to support technology transfer through applied teaching and research. It seeks to attract companies as partners to run training centers, workshops, incubators, and labs at GJU's campus.

In close cooperation with the Project Office at Hochschule Magdeburg-Stendal, the Office prepares students for and supports them during their internships in Germany. In addition, the OIL's Career Center provides job offers and career services for GJU graduates and students.

Through these activities, it gives business the possibility to hire graduates who are highly qualified and prepared for the market!

The German Language Center is the unique selling component of GJU. It is by far the largest university-based German Language Center worldwide with currently 72 qualified teachers on fixed contract and around 1500 contact hours per semester.

German language courses are offered on six consecutive levels, with students attaining level B1 of the Common European Framework of Reference for Languages. These exams are realized in close cooperation with the Goethe Institute Amman.

Furthermore, a wide range of modules prepares students in a tailor-made program in the best possible way for their stay in Germany. Among these modules are courses in Language for Special Purposes – the so called technical language – in currently eight different fields. Additionally, courses in Intercultural Communication, Internship Application Training and Academic Writing are on offer, and blended learning elements are more and more a part of the language instruction. GJU employees also have the opportunity to learn German at the Center.

As the Center hosts also the only Test-DaF-Center in Jordan, and Arabic as a Foreign Language Courses are being established, the unit is constantly developing.

Outgoing Students

Student: Mudaffar Maayta
Major: Architecture and Interior Architecutre

It was the best experience ever ,I can't explain it ,but it was the best thing in my life.

Student: Razan Barghuthi
Major: Architecture and Interior Architecutre

Photo Title: My internship at BMW in China

Student: Nesrin Lahham
Major: Industrial Engineering
Photo Title: Impressions from Germany

It is really a precious and weird year; I thank God that I had the chance to spend one year in Germany. I encourage everyone to do it; I passed different steps in my life and I got so much advantages and knowledge - more than within the three years that I spent at GJU, even though it was not easy at all in finding an internship, a dorm or to integrate in the German society. I faced so many contradictory phases during my stay like: I want to go home, I want to stay here in Germany forever, I want to know new people, I want to speak to anybody..... I can say that I discovered so many thing in my character I did not notice before - good things and also bad ones. I tried to develop my myself as much as I could. So I think everyone who has the chance to spend this year should do it in the right way, even though you will face difficult circumstances. But in the end you have your luck in your hand and you can make something amazing from even the difficult situations you will go through.

Student: Yazan Khatib
Major: Management Sciences

Through my year in Germany, I was able to meet people from other cultures, which benefitted me greatly, and opened my eyes to new things. The year in Germany has had a huge impact on my life decisions for the future, and has given me a big amount of life experiences and memories.

Outgoing Students

Student: Abeer Khanfar
Major: Pharmaceutical and Chemical Engineering

The German Year is an astonishing time one could go through. Living it with all its ups and downs made me more stronger by breaking barriers and get rid of fears. I went to Berlin and found my internship also in Berlin. Being punctual is one of the most important things that I have achieved. Just enjoy it!

Name: Sally Odeh
Major: Architecture and Interior Architecture

My German Year was an unforgettable experience and I would love to go back if I had the chance.

Student: Malak Jweihan
Major: Pharmaceutical and Chemical Engineering

Goodbye Germany – Hello GJU! The story of German ‘incoming’ students on campus

A growing number of students also are coming FROM Germany to study at GJU for a semester: in the academic year 2013/14, 61 so called ‘incoming’ students joined GJU for a study semester. These students came from more than 30 different partner universities in Germany. The GJU ‘study buddies’ that were assigned to the incoming students prior to their arrival were rated very successful – they helped to familiarize the incoming students with campus life and with living in Jordan. GJU’s International Office together with the Deanship of Student Affairs organized an ‘incoming’ orientation week with seminars about Jordanian culture and visits to touristic sites throughout the semester. The incoming students enjoyed the immersion experience of studying and living in another culture. Furthermore, they rated highly the academic quality of their study programs, saying the smaller class sizes allow more access to and interaction with the instructors than in Germany.

Student: Johanna Riedel
University: OTH Regensburg

I still remember the first time I went to GJU for my registration: The buildings looked so much bigger than on the pictures of the homepage and with the sunshine it was pretty warm. In FEBRUARY!!! I soon learned that it is basically always warm and sunny in Jordan - what a nice difference to Germany ; Especially in the beginning of my time at GJU it was great to have a so called Study-Buddy on my side, in my case this angel was Jana. She not just showed me how to get around at GJU and in Amman, but also through her I learned how to cook Arabic food and ate with her my first Mansaf.

Great for me was also the huge variety of available courses. With all this different choices I had (we could take nearly every course!), I found a perfect combination for myself. At the OTH Regensburg I study International Relations and Management, but in Jordan I took courses like Water Management in the Middle East, Contrastive Culture Studies and Social Entrepreneurship and Enterprises. Especially the course which was far away from my actual study subject, Water Management in the Middle East, I enjoyed most and also learned the most! I also was very lucky with my professors, all of them were very supportive and (with some exceptions) taught on a high standard.

But the best thing at the German Jordanian University were the students themselves. Within weeks I found the best friends someone can wish for. And as their German year is approaching, I soon will see them again - just this time I will be the one showing THEM around.

I hope that all GJU-students in Germany have the same great experiences I had! And who knows, maybe I see some of you again!

Johanna Riedel

Incoming Students

Student Name: Raphael Krueger
University: HTWK Leipzig

Photo Title: "Traveling to the old city of Petra"

Before going to Jordan I thought maybe I will just lose a half year and need more time to graduate in Germany. But on the other hand I was really interested in living some time in another country, especially in one with a quite different culture. Finally I am sure that it was the right decision and my time in Jordan was one of my best experiences. I got new friends and learned a lot from their culture.

Student: Rahel Eyselein
University: Technische Ohm Hochschule Nürnberg

Coming to Jordan was a pleasure, especially meeting some of you Jordanians at GJU! Jordan is a beautiful country with beautiful people and so much fun to explore. I would never want to miss this time!

Photo Title:
Discovering Amman with my study buddy
Beautiful Amman, Books@Cafe a perfect place to study!

Incoming Students: Lorena Lang, Majid Panj Tan Panah, Juliane Reumschüssel
University: Hochschule Heilbronn

Our experiences in the holy land: it was a great time! We really enjoyed our semester in Jordan. People are very friendly and help you. In general Jordanian hospitality dictates social interaction. Whenever we could, we spent time with our friends' families and could collect real-life experiences in an Arabic country.

Especially when it comes to the awareness of time and space: The GJU Job Fair, German weeks and ceremonies became a firm highlight.

Jordan represents a melting pot of glorious impressions. From floating in the Dead Sea, over camel tours in Wadi Rum, traveling back in time in Ajloun, Jerash and Petra, to hiking in Wadi Mujib, and scuba dive in the colorful Red Sea – Jordan became home to us.

Student: Fabian Scheubeck
University: OTH Regensburg

Flying Faculty Program– German Professors to teach at GJU

The Flying Faculty program aims to attract lecturers and professors especially from the German Partner Universities of GJU to spend a short research and teaching stay at our University. It is financed jointly by the German Academic Exchange Service (DAAD), GJU Project Office Magdeburg and GJU. The courses of the flying professors are intended to complement the curriculum offered by the faculties. Faculties can apply for funding for this program through the IO and receive logistical support during their stay. The program helps to intensify the ties between GJU and the partner universities and it exposes the students to German language lectures. During the last academic year 23 lecturers from 18 different partner universities came to GJU and taught over 600 hours.

Network Heads of German Universities

The German Jordanian University was founded as a bi-national University, referring to the German model of Universities of Applied Sciences. All majors at the GJU have been introduced in cooperation with one or several German Partner Universities. 15 German network heads in different areas have contributed to the study programs at the German Jordanian University in 2013/14.

Exchange Coordinators

The German exchange year is at the heart of all study programs at GJU. The Exchange Coordinators play a major role in enabling the exchange year. Being part of the school's faculty, we are mainly responsible for the academic side of the student exchange. Our tasks include the information of students, finalizing of learning agreements, credit transfer as well as acceptance of the German year internship. But more important is the personal interaction as students contact us with their various questions. We chat with them before they leave to Germany, we answer e-mails, provide advice and encouragement before and throughout the German year.

All students change during their German year, none returns unaltered. Some returnees come to our office, with smiling faces, sparkling eyes and so full of tales of their German year and all that they have learned and seen. And then we know: it is really worth it!

Opened in December 2012 and located in Jubeiha, the Vision Training Center focuses on two main activities:

- 1) the training of professionals in the field of vision rehabilitation including a professional diploma and a master's program, and
- 2) the provision of services to persons with visual impairment in the community. In addition, for the next 3 years, the Vision Training Center will coordinate and participate in a Tempus project entitled: Curriculum and Skill Development in Vision Rehabilitation. Supported by the European Commission, this program includes 10 partners from Europe and the Middle East (Jordan and Palestine).

Ferial and Hidaya are two service users of the Vision Training Center. Ferial has macular degeneration. She can read the newspaper again with magnifying spectacles. Hidaya, 17, is preparing for Tawjihi. She uses her own spectacles with an illuminated magnifier.

Between September 2013 and 2014, clinic of the Vision Training Center received 221 visitors, carried out 155 assessments (of which 88 are children), and provided 198 visual aids.

If you know someone who has a poor vision that cannot be corrected with regular glasses, let him or her call us:
06 429 4489 or 079 761 6425.

The students in the professional diploma in vision rehabilitation received their certificates from HRH Prince Raad Bin Zeid and Dr. Natheer Abu Obeid in January 2014. They came from Jordan, Philippines, Togo and Uganda.

In June, 6 master's students went for two week training in Birmingham (UK) to learn about the services for persons with visual impairment. Their trip was financed by the Tempus program.

The Consultations and Training Center was full of activities, starting with upgrading the skills level at the university by offering internal training for GJU's employees in different areas like executive secretary, reporting and Excel.

The Center also focuses on creating Public Private Partnerships with other training centers to expand its umbrella and reach other sectors than the ones it had before.

The Center graduated local and international trainees from different diploma programs in Aviation, Accounting, Management, Tourism and others.
